HUNDREDS DIE IN FIRE

Madrid Theater Becomes Trap

Hotel House in Mad Panic
as Flames Burst From
Back of Stage

How Trampled in Frenzy;
Dead Choke up Exits;
Many Suffocate

MADRID, Sept. 23. (AP)—Reuter's, all night reported that several hundred persons are believed to have perished in a fire which broke out during a performance in the Gran Teatro. More than 300 persons are under treatment at hospitals and emergency stations.

The theater was packed to the top with a typical Sunday audience, for a performance of "La Boheme" when, during the performance, there was a great fire of flames on the stage.

NEW FOR EXITS
The theater holds 3000 and the fire broke out from the back of the stage. The flames spread into the galleries and those in the galleries were less fortunate and the fire was soon choked with struggling bodies.

One of the fruits of this victory was a home rule charter for New York City, which was full of jokers. One of these was the head of departments appointed by the Mayor—was Oakley Hall—were not only virtually irremovable but held office for seven years after the Mayor's term expired.

Spokane Again Jarred by Blast
SPOKANE (Wash.) Sept. 23. (AP)—The second "mystery" explosion in a week Saturday night rocked the north side and brought calls to police and fire departments from all over the city.

Detective Captain Miles announced the explosion was caused by a bomb and fragments of an internal machine were found. It was made of copper and tin and a fuse had been attached.

The Story of TAMMANY

BY EDWARD C. KRAUSS
(Mr. Krauss, the writer of these articles, spent more than fifteen years in New York City, and knew the city as only a writer could know it.)

BY EDWARD C. KRAUSS
(Mr. Krauss, the writer of these articles, spent more than fifteen years in New York City, and knew the city as only a writer could know it.)

Twice, at Albany as in New York City, was the best organizer of graft that the system of rotten politics had produced up to that time. The mercenary Senators and Assemblymen whom he led and drilled—they were of both parties—became known as the Black Horse Cavalry.

Not even the personal friends of the boss were exempt—not even Fisk and Gould; the Erie Railroad paid out \$1,500,000 for "legal expenses" in 1869, of which the Black Horse Cavalry obtained a large share. These looters were shameless; though denounced from the very floor of the Legislature itself, with facts and figures given and names named, they laughed and continued their operations.

One of the fruits of this victory was a home rule charter for New York City, which was full of jokers. One of these was the head of departments appointed by the Mayor—was Oakley Hall—were not only virtually irremovable but held office for seven years after the Mayor's term expired.

Blind to the defects of this charter were most of the reform element of the city. Tilden opposed it in a jaded, exhausted condition. Neither its virtues nor its defects aided its progress through the Legislature; the Black Horse Cavalry held Tilden himself up for bribes estimated by Tilden at \$500,000 and by Tilden at double this sum.

CHURCH CAUCUS DEFENDED GREECE AND ITALY SIGN PEACE PACT

Mrs. Willebrandt Declares Prohibition Moral Issue Giving Pastors Right to Fight Smith

LORAIN (O.) Sept. 23. (AP)—Mabel Walker Willebrandt, assistant Attorney-General, in an address before a conference of Methodist Episcopal ministers here tonight, charged that Gov. Smith, the Democratic Presidential nominee, "is hiding behind his own church because he is afraid to come out and face the record that he has made as a champion of the liquor traffic."

HICKMAN RECEIVED IN CHURCH

Slayer of Marion Parker One in Class of Sixty That Confirms Faith

SAN QUENTIN, Sept. 23. (Exclusive)—A confirmation class of fifty men and ten women, including William Edward Hickman, Clara Phillips and Joseph Troche, slayers, was received into the Catholic Church at the annual services conducted in the prison chapel. Bishop John J. Mitty of Salt Lake City performed the service in the absence of Archbishop Edward J. Hanna of San Francisco, who is in Australia.

Four Deaths in Day's Accidents Near San Diego

SAN DIEGO, Sept. 23. (AP)—Four deaths and an injury, probably fatal, is the Sunday toll from collisions in the vicinity of this city. Near the Agua Caliente (Mex.) race track this morning a train on the San Diego and Arizona Railway struck an automobile, instantly killing two Mexican women, Ramona Acuna and Maria Jara. A little girl who was riding in the car was injured so badly that she died soon after the collision.

Two-Man Plane Sets Unofficial Altitude Record
DAYTON (O.) Sept. 23. (AP)—An unofficial altitude record for two men in a plane was established here today, army officials announced when Capt. A. W. Stevens, head of the photographic section at Wright Field, and Lieut. James Doolittle, pilot, rose to an indicated altitude of 38,400 feet. The present record is 33,000 feet and was established years ago in a plane piloted by Harold G. Gatty.

Will Rogers Remarks:
NEW YORK, Sept. 23. (To the Editor of The Times:—) In Omaha Al relieved the farmers in Oklahoma (near Claremore) he bawled out the Baptists, but in Denver he reached his peak when he told the truth about the power trusts. It's no novelty to hear the farmers verbally relieved, and to reprimand a Protestant is nothing new for they do that to each other, but when you hop on the power trust you are standing on the very arches of the Republican party. I had a joke about the power lobby in the papers and I got so many letters from power magnets saying "there was no power lobby" that it almost made me lose faith in rich men. So I'm 'em, Al.

Collision Stops Driver's Heart

OAKLAND, Sept. 23. (AP)—Jerry Lapurin, 22 years of age, Los Gatos rancher, dropped dead of heart disease today after his mother, sister and Belle Cavello, 20, of Oakland, were killed in a collision with an automobile and one driven by Alex Sieva of Oakland.

Morrow Barely Misses Bandits
MEXICO CITY, Sept. 23. (AP)—United States Ambassador Morrow today escaped by one hour a bandit raid on a village between Cuernavaca and Mexico City. He arrived in the town to find it in great excitement but with the bandits gone.

RAGING BRUSH FIRES GAIN ON FIGHTERS IN SOUTH

San Diego and Riverside Counties Ask More Help to Check Flames; Ridge Route Blaze Beaten

Under a veil of smoke and ashes that fell over an area of many miles, fire fighters in four counties of Southern California with the help of experts from the Federal government, fought to bring great brush fires under control last night.

Ventura and Los Angeles counties appeared to be making headway against the Ridge Route fire but San Diego and Riverside counties were fighting a seemingly losing battle against fires with in their borders.

MORE DEAD REVEALED

Toll in Florida Village 400
Storm Fatalities, Estimated Up to 2200, Never Can be Determined

WEST PALM BEACH (Fla.) Sept. 23. (AP)—Two hundred additional bodies were found today at Pelican Bay on Lake Okechobee, bringing to 400 the total found there since yesterday. A. L. Schaffer, Washington representative of the American Red Cross, announced today.

Mr. Schaffer said the official Red Cross count of known dead was increased to 1200 by the discovery. The bodies, Mr. Schaffer said, he was informed, were found in a space of 200 yards just as working parties entered the settlement.

Palm Beach Area Turns Its Energy to Plans for Reconstruction

Officials in charge of relief work said today that the death toll, estimated at 1000 to 2200, probably never will be accurately made. It was explained that conditions in the devastated area now are such as to make a definite check impossible.

MAY HOLD LINE

Los Angeles county forces under County Forester Turner were battling the fire in the San Gabriel Valley. Assistant Forester Daries and his men are reported to have carried out their part of the campaign against the fire in the San Gabriel Valley. The county consolidated its forces in one big camp on the slopes of the San Gabriel Valley below Castaic, using it as their base of operations.

WOULD SAVE HOMES

One of the objectives of the military forces was to prevent the fire from coming down into Halesy Canyon country where a large number of substantial ranch houses and dwellings are located. One of the difficulties in bringing the Ridge Route fire under control has been the fact it was burning in every direction at once and for the most part in unusually rough country that is not easily reached by the fire fighters.

KING ZOGU IN LOVE TANGLE

Albania's New Ruler Wants to Wed Italian Princess but His Moslem Wife Won't Let Him

PARIS, Sept. 23. (Exclusive)—Ahmed Zogu, newly-crowned King of Albania, is the central figure in a marital tangle which has political and religious angles which might result in a new and bitter war in the Balkans. From sources which can be re-verified, Zogu, according to western customs, is a bachelor, but in a land predominantly Moslem he is regarded as a married man.

It would be most advantageous for him. In a country such as Albania, where the peasants are ruled over by their lords by a system the like of which has not been seen in Europe since feudal times, it is well for the King to have all the support he can muster. Such a marriage would insure Zogu the backing of Italy and cement him in his throne were it not for one consideration.

HE'S MARRIED

That consideration is what makes the situation tense and dangerous and lends it an aspect which would make a plot for one of the "Ara-

HOSE ROUTS HONOLULU MOB
Fire Department Called Out to Save Japanese Who Confesses Kidnaping and Slaying Boy

HONOLULU (T. H.) Sept. 23. (P)—The 19-year-old Japanese held as the confessed slayer of Gill Jamieson, 10-year-old son of a banker here, has repeated his avowal of readiness to die on the gallows. He is willing and entirely ready, officials who interviewed him after his arrest, said today.

A mob, which surrounded the jail after his arrest last night, seemed eager to make him suffer in lynch court, so authorities called out a fire engine to disperse them. City Attorney Davis had previously ordered the crowd to go home and let the law take its course. Cold water proved more effectual than cold logic, however, and the streets were cleared in a short time after the fire engine went into action.

STUDENT OF HICKMAN
The prisoner is Yutaka Fukunaga, described as a student of the crimes of William Edward Hickman, California kidnaper-murderer, and Leopold and Loeb, Chicago "thrill" slayers. Willingness to expiate the crime on the scaffold was first expressed in a letter sent to a newspaper and which was published here Friday.

Police said the prisoner with the fatalism of an oriental, abandoned hope of escape after newspapers published the serial numbers of the bills making up the \$4000 ransom paid by the victim's father, Frederick W. Jamieson, vice-president of the Hawaiian Trust Company. They quoted the youth as saying he considered surrendering to police yesterday before his capture. Officials added he also considered deferring the surrender until the 25th inst. That date was chosen he is quoted as saying, because the premium on his life insurance policy falls due then.

Detectives said Fukunaga told them he believed Jamieson had paid him the \$10,000 ransom demanded until he read in the newspapers that only \$4000 had been paid. The boy was kidnapped the last night, and the ransom paid \$4000 the same night on the promise his son would be restored to him.

Fukunaga was quoted as saying he discovered the \$6000 shortage when he returned to his hotel but believes he had dropped the money in the underbrush near the McKinley High School. Police said he feared to go back there lest he encounter a searching party and failed to learn he had received only \$4000 until he read of it next day.

Fukunaga confessed that he lured Gill from school last Tuesday and killed him at the spot where the body was found an hour later. Gill's strength, he said, was almost equal to his own so he had a hard time killing him.

SHOWS PREPARATION
Detectives believe the Japanese meditated over the crime for a long time. In his room was found a list of all the vice-presidents of the banks in Honolulu, which police are of opinion was for use in planned future kidnaping operations. A map also was found showing the Jamieson house in Manoa, with the telephone number and Jamieson's automobile license number and directions how to reach the Jamieson house.

After killing the Jamieson boy Fukunaga apparently went to Waiialua, on the other side of the island, where in 1925 he was graduated from high school at the head of his class.

He returned to Honolulu yesterday, having purchased a railroad ticket with one of the \$5 ransom bills. The kidnaper-slayer was well-liked during his school days at Waiialua after he had transferred from the Kaula school. His teachers said he had no bad habits during his high-school days.

QUOTES POETRY
Fukunaga's confession to William Heen, attorney for Jamieson, was told with occasional smiles and quotations from poetry. His statement to Heen confirmed police theories the crime had been plotted long in advance.

Heen was told that Fukunaga had conceived the idea for his "adventure" last March when the Hawaiian Trust Company was pressing his father for rent money. Jamieson is vice-president of the company.

At first, Fukunaga said, he thought he would kill John R. Galt, president of the company, but changed his mind because he thought Jamieson had "lots of money."

Officials said the prisoner persisted in his statements that he had played a long hand, denying anyone else was involved. They said Fukunaga insisted the ransom letter headed "Will God save the three kings?" was his own composition.

BUYS WHITE COAT
The prisoner declared he had purchased at a Chinese laundry the white coat he wore to the school attended by the Jamieson boy who was lured away by a report his mother had been injured in an accident.

Detectives said they found in Fukunaga's room a number of books indicating he had been taking some correspondence course. In the waste basket they said was a letter to the victim's father.

Fukunaga's father is a gardener at Queen's Hospital. The boy profited there for a time and police, who said the youth is a narcotic addict, learned there had been several narcotic thefts from the hospital as the boy was there. He was found near the body of the Jamieson boy, discovered last Thursday.

TELLS HIS MOTIVE
Fukunaga said he wanted to send his parents to Japan with the money he would get from the ransom.

The Japanese said, "My parents have always been poor and they have always dreamed of returning to Japan. I wanted to send them there more than anything else in the world. I wanted to bring happiness to my family. I was going to get the money and then I was going to the Coast (presumably the States) for six or seven months. Then I would buy lots of new clothes and come back and give them the money."

"I would tell them I had made a fortune and would then send them to Japan where they were well established there. I was going to the police and make a confession."

MISS EARHART IN NORTH
SAN FRANCISCO, Sept. 23. (P)—Amelia Earhart, first woman to span the Atlantic by air, arrived here today from Los Angeles. She will be the guest of the San Francisco chapter of the National Aeronautic Association for several days.

PITTSBURGHER WINS AIR RACE
Duke Official Class A Victor in Flight to Cincinnati

Holman of St. Paul Captures Class B Contest Prize

Goebel Gets Nonstop Award; Only Man to Finish

CINCINNATI, Sept. 23. (P)—Robert A. Duke of Pittsburgh, flying an American Moth, was declared the official winner of the Class A air race from Los Angeles to Cincinnati today when he brought his plane to earth here at 2:10 p.m., after flying twenty-five hours, sixteen minutes and forty-two seconds at an average speed of 21.15 miles an hour. First prize was \$2000.

Charles W. Holman of St. Paul, piloting a Laird plane, won first place in the Class B group. He landed at 1:30 p.m. after nineteen hours and twenty-four minutes in the air, making an average of 107.98 miles an hour. His prize also was \$2000.

Arthur Goebel, flying the Lockheed-Vega Yankee Doodle, won the nonstop race. Goebel landed at 10:25 p.m. yesterday after fifteen hours and seventy-four minutes in the air for an average of 129.47 miles an hour. In addition to the \$3000 first prize, Goebel won a leg on the \$6000 gold trophy and a small gold replica of the large trophy. Officials plan to make the race an annual event and possession of the large gold trophy will come only after three successive victories.

Goebel was the only entrant to complete the nonstop race.

CLASS A ENTRANTS
Other Class A entrants follow: George W. Hopkins, Detroit, Stinson, Jr., second \$200; time 23:21:24; average speed, 22.89 miles an hour. Theodore W. Kenyon, Boston, Challenger, third, \$400; time, 26:12:37; average speed, 22.95 miles an hour.

J. Whitman, Fond du Lac, Pheasant, average speed, 20.64 miles an hour. J. Shelly Charles, Richmond, Va., fourth, \$200; time, 28:22:24; average speed, 20.94 miles per hour. A. E. Kessler, Hagerstown, Md., Challenger, sixth, time, 30:54:40; average speed, 20 miles an hour.

Dick Myhr, Los Angeles, Simplex, seventh, time 33:49:17; average speed, 24.04.

Elfred Stanley and Ralph Haynes, Elmira, N. Y., eighth, Waco, time, 34:3:41.

OTHER CLASS B WINNER
E. E. Ballough of Chicago, the only other Class B entrant to arrive, took second prize of \$900. He landed at 2:10 p.m. in his Laird plane after twenty-five hours, twelve minutes and twelve seconds flying for an average of 23.12 miles an hour.

Goebel had made arrangements to start a telegraphic search for Earl Burgh, the owner of the nonstop race, asking friends at various airports to go out and look for him. He abandoned the plan when notified by the Associated Press that Burgh was at Albuquerque today after giving up the flight there when he ran into a dust storm. Burgh hopped off today for Cincinnati but had not arrived at dusk.

Goebel said the crowd at Lunkens Airport when the racers came in was larger than the one at Mines Field when the transcontinental races ended at Los Angeles recently. The crowd there was estimated at 65,000.

Prizes were presented the flyers tonight at a banquet in their honor given by the Chamber of Commerce. All those landing here were given \$100 by the air race committee.

Traffic Fight Victim Expires

SAN FRANCISCO, Sept. 22. (P)—After he had been attacked and kicked by two men, Roy Dempsey, 45 years of age, of Petaluma, died tonight en route to an emergency hospital here.

Dempsey was returning from a trip with Mr. and Mrs. Alvin Kulberg of San Francisco, when the three narrowly escaped being run down by an automobile. Kulberg said the machine stopped after he shouted a warning to the driver and that two men jumped out and attacked him. Dempsey ran to his rescue but was knocked down and killed. He was died on arrival at a hospital. Police said they have a clue by which they hope to trace his assailants.

KIDNAPED UNIONIST GIVEN HIS LIBERTY

DETROIT, Sept. 23. (P)—Max Ruben, business agent and secretary of the Motion Picture Operators' Union of Detroit, who was kidnapped from his office by four armed men late last Wednesday, returned to his office unharmed at 3 o'clock this morning. Ray W. Gagnon, president of the union, announced today. According to Gagnon, "not a single cent" was paid for Ruben's release. Ruben, he said, had been held captive not more than five miles from the city limits.

TWO PLANE VICTIMS IN SERIOUS CONDITION

ST. HELENA (Cal.) Sept. 23. (P)—A. M. Patterson, 35 years of age, of Oregon City, Or., and his 10-year-old son, Douglas, are in serious condition at St. Helena Sanatorium here as a result of injuries suffered yesterday when an airplane struck them while racing across a field to take off. Robert 3-year-old son of Mr. and Mrs. Robert Walwright of Chiles Valley, was killed by the plane.

SAN JOSE PHYSICIAN DIES

SAN JOSE, Sept. 23. (P)—Dr. William Simpson, the first city health officer of San Jose and for the last twenty-six years health officer of Santa Clara county, died at his home here this morning at the age of 82 years. He was the oldest practicing physician in San Jose.

AMERICA FACES ARMS CRITICISM

Anglo-French Pact Rejection Would Bring Blame

Geneva Prepared to Charge Responsibility

Washington Likely to Make Counter-Proposal

WASHINGTON, Sept. 23. (Exclusive)—The props are all set at Geneva to place responsibility for the blocking of naval disarmament squarely upon the shoulders of the United States.

Should the United States refuse in a formal note to accept the Anglo-French naval compromise proposal as a basis for discussion at an early meeting of the League's preparatory disarmament commission this rejection of the compromise is considered certain to be followed immediately by charges that the American government has made it impossible for the commission to proceed with any hopes for success.

Washington officials are fully cognizant of this situation and this furnishes one of the chief reasons why so much attention is being given by President Coolidge and Secretary of State Kellogg to the drafting of the formal reply to Great Britain and France outlining

INDIAN MEDICINE MAN REVEALS CENTURY-OLD SECRETS OF TRIBE

MILWAUKEE, Sept. 23. (Exclusive)—Century-old secrets of the Winnebago Indian medicine man are being revealed to Huron H. Smith, botanist of the Milwaukee Public Museum, who speaks the language of several tribes and has long been a friend of the red man.

Ewanaginka, 65-year-old medicine man of the Winnebagoes, is intrusting to a white man the secrets of his lodge. Kept sacred by his people for thirty-five generations because "out of 1200 young Winnebagoes I couldn't find anyone worthy to be my successor."

The medicine man is blind. His home on the Hemlock River, twenty miles north of Wisconsin Rapids, is his laboratory. He delves into the mysteries of herbs and roots, trusting to his educated fingers to differentiate between poisonous and health-giving vegetation.

Red dogwood, Ewanaginka tells Mr. Smith, is one of the greatest medicinal tonics among the Winnebagoes; leaves of the sumac are used for intestinal trouble; poultices for wounds are made of the inner bark of the sumac, while the juice of the sumac, when mixed with maple syrup, is used as a beverage and tastes like lemonade. Wild cherry was fed to the ponies to engender pep when hard riding was necessary. Spores of the large puff ball were blown into the nostrils to stop the severest of nosebleeds.

Only one common disease is the Indian dubious as to cure and that is consumption. Medicine men long before the whites came used to cure consumption in its first stages but a cure was impossible in advanced cases. Neither can the white man cure it, Ewanaginka declares.

to take any step that might be construed as obstructing naval limitation. For that reason, it is understood, the President, either in the replies sent to Great Britain or in later correspondence will make it clear that the United States still is anxious that navies be further reduced. It is considered extremely probable the United States will submit something in the form of a counter-proposal to the Anglo-French plan.

The King and Queen of Spain recently dived in a Spanish submarine off Santander, Spain.

BONDSMEN JOIN FIGHT ON FINES

Guarantors Hold Producing Defendants Enough

SAN FRANCISCO, Sept. 23. (Exclusive)—Litigation, the issue of which is responsibility for fines assessed against persons who jump bond on liquor law violations, is scheduled to go to trial before Federal Judge Kerrigan tomorrow. The decision is declared to be of major import to bonding companies throughout the nation and is expected to command widespread attention.

It is the contention of the United States Attorney that the bonding companies are liable. Those opposing him in this instance, the New Amsterdam Casualty Company and the Fidelity Guaranty Company, aver their legal duty has been fulfilled when they bring their client into court.

The bonding companies started in by demanding exoneration of bonds that have been standing since 1922 and 1923. Investigation by Department of Justice agents revealed about ninety cases in which fines ranging from \$100 to \$300 and aggregating \$15,000 all told had been assessed for minor violations of the liquor laws and the defendants allowed several days in which to pay. Various pleas had been advanced, the principal of which was one of straightening out business affairs.

While ostensibly preparing to pay their fines, the defendants fled.

BAY CITIES RESUME PHONE FIGHT TODAY

SAN FRANCISCO, Sept. 23. (Exclusive)—Hearings on the plea of the seven bay cities and the telephone users fighting the proposed \$7,000,000 advance in telephone rates, to compel the Pacific Telephone and Telegraph Company to furnish records and data demanded by the petitioners will be resumed tomorrow before Special Examiner Steady at his office here. The bay district cities fighting the advance in rates have been endeavoring for months to obtain data from the company in order to prepare its case.

Shantung Army Remnant Beaten

SHANGHAI, Sept. 23. (Exclusive)—Gen. Chiang Kai-shek announced the receipt of a telegram from the Nationalist general, Pai Chung-hsi in Northern Chihli Province, announcing the defeat of a remnant of the Chihli-Shantung troops and the flight of Gen. Chang Chung-Chang, who supposedly has taken refuge within the Japanese leased area in Manchuria.

PHILIPPINE GOVERNOR EXPECTS TO KEEP AIDE

MANILA (P. I.) Sept. 23. (Exclusive)—Gov. Gen. H. L. Stimson told Associated Press that he has no reason to believe that Vice-Governor Eugene Gilmore will not return to the Philippines this fall. "I have not been informed he is not returning," Stimson said. He added that he has received no reply from the University of Wisconsin on his request to extend Gilmore's leave of absence from the faculty for another year.

Wife Declines 'Comics'

HERO (Over) Sept. 23. (Exclusive)—Charles H. Davis, director of the Federal Trade Commission, said in a formal statement tonight that "the situation in the comic book industry is such that the Federal Trade Commission is unable to issue a ruling on the matter until it has completed its investigation of the industry."

UTILITIES HEAD PLAYS SMIT

NEW YORK, Sept. 23. (Exclusive)—Stephen Davis, director of the Federal Trade Commission, said in a formal statement tonight that "the situation in the comic book industry is such that the Federal Trade Commission is unable to issue a ruling on the matter until it has completed its investigation of the industry."

A Shot Rang Out

a "mercantile shot," that Dan Parker aimed at the "high-price clothing barons"—It was a "double-barreled" shot (his great 2 for 1 offer) that signalized the clothing consumers' FREEDOM from oppressive clothing prices. And for 20 months Dan Parker has waged an incessant WAR against high prices with the result—The California People esteem him higher than any other tailoring merchant.

They like his 2 for 1 PLAN, because through it, they save the entire profit on the second suit. "They save" 1/2 to 2/3 of the profit on the original suit because of the increased SALES VOLUME. They save the cutting fee on the second suit. "They save on production cost" because of a large shop volume. "They save" 3 middlemen's profits" because the goods is taken from the mill and placed on their backs, all by Dan Parker. The benefits of Dan Parker's economical campaign will be obvious to you—To-Morrow when you inspect his great offer.

Los Angeles to Cincinnati Non-Stop Race

WINNER USED PENNZOIL

Art Goebel and Harry Tucker

Again Thrill Nation in Their Third Great Cross Country Flight With Famous "Yankee Doodle" Plane—Pennzoil-Lubricated

Los Angeles to Cincinnati, non-stop—2,080 miles in 15 hours 17 minutes—an average speed of 136 miles an hour: another great achievement for Goebel and Tucker—another great victory for Pennzoil: Pennzoil was the choice of these daring airmen on their recent sensational non-stop flight from Los Angeles to New York. Splitting the air at an average speed of 145 miles an hour, they spanned the continent in 18 hours, 58 minutes. Again with Pennzoil they entered the New York to Los Angeles non-stop flight of the National Air Races. Fighting gale, rain and fog during almost the entire flight, they were forced down only a short distance from their goal, when they ran out of gasoline. But they were the only entrants to finish the race, "the most hazardous flight of my career," said Goebel, "and Pennzoil performed perfectly." In each of these thrilling victories over time and distance, Goebel and Tucker used the same everyday Pennzoil that you can buy for your car—from 10,000 independent dealers in the West.

Hopes of Hoover Rise for Breaking Into Solid South

STUBBORN BATTLE FOUGHT IN MANY OTHER REGIONS

North Carolina and Texas Held to be Moving Toward Republicans; Smith Makes Some Gains

Political trends in the South, the Middle West and mountain States are reviewed by correspondents of the North American Newspaper Alliance in the second section of the weekly survey which is published here.

Hopes of Hoover breaking into the solid South by carrying North Carolina and Texas are expressed, while strong battles are being conducted by both sides in the other States. The first section of the weekly survey, covering eastern States, was published in yesterday's Times.

TENNESSEE AND KENTUCKY FIGHTS HOT

LOUISVILLE (Ky.) Sept. 23. (Exclusive)—Developments this week put Kentucky and Tennessee definitely with the hotly contested States. The Republican campaign was brought to Kentucky by Senator Curtis, well received at Lexington. Senator Robinson opened his party's State drive in Owensboro with an equally stirring reception. Smith's stand for the McNary-Haugen "principle" should strengthen him with the agrarians in Kentucky. Tennessee Republicans, heartened by Hoover's coming visit, face greater activity by Democrats, whose leaders report Smith will speak in Nashville and Chattanooga.

VIRGINIA PLACED IN SMITH COLUMN

RICHMOND (Va.) Sept. 23. (Exclusive)—Little appreciable change in Virginia is evident this week. Certain sections are in bad shape from the Democratic standpoint, but Smith is expected to carry the State by a small majority. His wet stand has had little effect on Senate or House contests. The dry Democrats seeking re-election say they disagree with Smith on prohibition, but praise him on other issues. This may cost them some votes, but the religious question is hurting Smith and them more than prohibition.

All ten districts will return Democratic Representatives.

NORTH CAROLINA MAY SWING TO HOOVER

CHARLOTTE (N. C.) Sept. 23. (Exclusive)—Leaders of the anti-Smith Democratic organizations are jubilant over the opening of their campaign to give Hoover the electoral vote. Cities and towns in every section were represented in the rally, despite a severe storm. Nevertheless, the week is marked by increasing optimism of regular party leaders, who say Senator Robinson's tour resulted in a decided swing toward Smith.

Republicans are working quietly, but with little open campaigning. Like the Democrats, they use radio for addresses to women by women. Republican leaders say Hoover will win by 25,000, while regular Democratic leaders predict 75,000 for Smith. All ten Democratic candidates for Congress will be elected. They are classed as dry.

SMITH SENTIMENT IN GEORGIA INCREASES

ATLANTA, Sept. 23. (Exclusive)—Georgia seems to be developing more strongly for Smith. He will win by a substantial majority. In Alabama, where revolt is emphasized by the long crusade of Senator Ref-

lin, Hoover has made greater headway. The majority for Smith will be less than in Georgia, but seems assured. Florida, for the first time in years, has a heated Presidential contest, with Democrats gaining steadily.

EXTREME SOUTH LINING UP FOR SMITH

NEW ORLEANS, Sept. 23. (Exclusive)—Democratic forces in the extreme South further consolidated their positions this week. The Mississippi State Democratic committee expelled a member taxed with advocating Hoover. Gov. Bibb continued his stump campaign for Smith. Opposition to Smith has passed high tide in Mississippi.

Gov. Long opened the Democratic campaign in Louisiana with an address to 2500 workers in New Orleans. He denounced the "whispering campaign." The first meeting of Hoover supporters was held this week, but mustered only a small crowd.

MICHIGAN PARTIES GET DOWN TO BUSINESS

DETROIT, Sept. 23. (Exclusive)—Republicans and Democrats held their State conventions this week. Both parties now have their candidates nominated, and the campaign is under full steam. There are no outstanding issues. Michigan raises no loud clamor for farm relief. While there are many abandoned farms, many of the owners are in city factories, getting good wages. Republican leaders are confident this prosperity will help Hoover. So far, neither party's State organizations has made liquor an issue, not sidestepping, but merely subscribing to what their national candidates say.

CURTIS MAKES HIT IN TRIP TO ILLINOIS

CHICAGO, Sept. 23. (Exclusive)—Senator Curtis is the first of the Presidential and Vice-Presidential nominees to carry the national campaign into Illinois. He made a single day's tour through Central and Western Illinois this week, accompanied by Republican State candidates. He was greeted by huge

crowds, which made him stretch the three speeches assigned him into twelve.

Acceptance by Carter Harrison, five times Mayor of Chicago, of the Presidency of the Smith Illinois Club, insures support of Smith by the entire solid Democratic faction in Chicago. The Republicans still are worried and hampered by bitter resentment between the faction headed by Mayor Thompson and State Attorney Crowe, and the group of which Senator Densen is "big chief."

HOOVER GAINING IN CITIES OF OHIO

CLEVELAND (O.) Sept. 23. (Exclusive)—Both Senator Fess, Kansas City convention keynoter, and Representative Burton, keynoter at the Cleveland national convention in 1924, will be elected to the Senate. This will give two Republican Senators again. Burton will replace Senator Locher, Democrat. Locher was voted out in the primary by Graham P. Hunt, Cincinnati attorney and modificationist. Both Fess and Burton are dry. Because of Hunt's pronounced wetness, Burton should beat him badly in the rural districts. A gain of one or two Representatives is predicted by both Republicans and Democrats. Hoover still seems to lead Smith, and is gaining slightly in the cities.

SMITH SEEMS TO ATTRACT WISCONSIN

MILWAUKEE, Sept. 23. (Exclusive)—The State Hoover campaign opened inauspiciously here Monday night with a talk by Senator Watson, Indiana, before only ninety-three persons. Watson admitted the Republicans face a hard fight. Meanwhile Democrats are concerned because the Milwaukee auditorium, which holds 11,000, cannot accommodate those who want to hear Smith a week from tonight. An appeal to La Follette Progressives to support Smith was made at the Democratic State platform convention Tuesday, the basis being that Smith is progressive and liberal.

The Republican platform convention was controlled by the faction supporting Walter J. Kohler, Con-

servative candidate for Governor, and a platform endorsing Hoover and Curtis was adopted, after one of the most bitter struggles in Wisconsin political history. Progressives made it clear their rejected platform had no reference to any Presidential nominee.

MINNESOTA STILL LISTED AS DOUBTFUL

MINNEAPOLIS (Minn.) Sept. 23. (Exclusive)—Political periscopes of both parties appear trained on the agrarian sections, where a clear view is sought on the reaction of the Farmer-Labor party adherents to the overtures of the major parties.

The Farmer-Labor vote will be a dominant factor when votes outside of Minneapolis and St. Paul are counted. Both Hoover and Smith are driving to annex it. The State still may be listed as doubtful, but probably will remain so until near the close of the campaign.

Davis and La Follette in 1924 cut a wide swath in the Coolidge total, and with Smith conceded a master vote-getter, Republicans are centering their fight for the La Follette vote in the country districts. In Hennepin, large county of the State, Hoover has a large margin. Smith doesn't come up to this county with an overwhelming lead. Hennepin may decide the vote in Hoover's favor. Republicans have the advantage of the old traditional majority.

REPUBLICANS KEEP UP STRENUOUS STRUGGLE

GREAT FALLS (Mont.) Sept. 23. (Exclusive)—While Smith is considered to have the edge in Montana, Republicans are organizing aggressively. Sixty-cent wheat unquestionably is making votes for Smith. Political forecasters continue to say Senator Wheeler will be re-elected, and that Gov. Erickson, also a Democrat, is gaining. It is conceded a majority of the Republican State ticket will be elected, and that that party will control the next Legislature.

IOWA SEEMS SAFE FOR REPUBLICAN TICKET

DES MOINES (Iowa) Sept. 23. (Exclusive)—Senator Curtis, at Spencer, found Smith's Omaha speech had fired many Northern Iowa farm voters, but leaders assured him the Republican cause is by no means lost in that strong McNary-Haugen territory. Curtis' sharp reply to Democratic farm-hecklers drew expressions of contrast with Smith's quiet answer to the full page hecking ad in Omaha. First returns of a State poll by the Des Moines Register and Tribune, in conjunction with 182 Iowa

Another Cycle of Real Estate Activity is Here

Now is the time to invest, say authorities. Consult a Realtor

The steady increase in realty transactions gives definite evidence that Los Angeles is again entering a cycle of real estate activity.

With a steady market and an increasing demand, the real estate you invest in now will enhance in value and bring you gratifying profit. That is why shrewd investors are quietly buying now.

Just as land is the basis of all value, so its possession is the surest step towards financial independence. 65% of all wealth of the United States is invested in real estate. It is the foundation of the

most famous fortunes in the country.

Go to a "Realtor" and look over his listings. He can put you in touch with rare investment opportunities in homes, business properties and other improvements. He is a specialist. Through years of study and experience he can give you the expert counsel in real estate matters as your attorney gives you in law.

The Realtor is an accredited member of the Los Angeles Real Estate Board, whose Code of Ethics embodies the highest principles of business. Be sure to look for the play of the title "Realtor."

4 great GENERAL MOTORS TRUCKS ARE NOW new Buick powered

Prices that are without precedent

1½ ton	MODEL T-30 with pneumatic tires	\$1395
2 ton	MODEL T-42 with pneumatic tires	\$1685
3 ton	MODEL T-48 with pneumatic tires	\$2800
4 ton	MODEL T-60 with pneumatic tires	\$3160

Chassis only, F. O. B. Pontiac, Michigan. These four models available in 25 variations of standard wheelbases, frame lengths and tire combinations.

This is the story—the big story of the day for truck owners and operators.

Six-cylinder Buick-powered General Motors Trucks, more than a year ago, revolutionized past ideas of truck operation—in the medium duty range.

Today the advantages they brought—greater safety with greater speed, power, flexibility—are extended into

the range of heavier duty.

Still greater power and speed, provided by the magnificent new Buick engines, made this latest develop-

ment possible. Advancements in general design and construction add to it. And prices that are without precedent have been made possible by wise use of great facilities—advantages fairly shared with buyers. Past prejudices and prejudgments must now be put aside by every truck-buyer who would deal fairly with himself!

Now, more than ever—A Truck for Every Purse and Purpose!

Time payments financed through Y. M. A. C. plan, at lowest available rates

LAND MESSAGE SERVICE SOUGHT

Radio as Supplement to Lines Planned
Short Wave Length Permit Applied for
Present Facilities Not Equal to Growing Business

WASHINGTON, Sept. 23. (Exclusive)—Plans for a nation-wide short-wave radio message service to supplement the present land lines, which are declared to be incapable of handling at high speed the rapidly increasing telegraph business, will be laid before the Federal Radio Commission Tuesday by representatives of the Universal Wireless Communication Company, Ltd.

Point-to-point message service between some 125 "key" stations throughout the United States is planned by the company, which recently was granted a license to use several wave lengths in New York and Chicago for experimental purposes, and which has filed an application for wave lengths to be used between all the large cities of the country. The company is the first organization to apply for a coast-to-coast message service license.

Officials of the company today explained that the purpose of the proposed service is not to supplant but to supplement the existing wire services, which, they say, are unable to handle their peak loads with speed and efficiency, pointing out that many times it is necessary for the wire services to route and relay messages in expedient which would not be necessary in wireless communication.

WITHSTANDS STORMS
The greater ability of the radio service to withstand the stresses of catastrophe also will be urged upon the Radio Commission as a reason why the company's application should be granted.

The recent disasters in the Southeast and Northwest, caused by storms, it was declared by Dr. John Naisbrough, president of the company, "give a splendid illustration of what the wireless can do in such emergencies. When one of these channels is cut off, the other equipment necessary for the wire services, immediate communication can be set up by use of the radio. The very life of the country is now dependent upon an efficient wireless message service."

Counsel for the company arguing before the commission will urge that body to study carefully the need and desirability of assigning the short-wave channels to services from which the country will derive the greatest good, and will oppose the allocation of these channels, limited in number as they are, to private business interests.

FLOOD OF APPLICATIONS
"Natural business practice forbids the wire telegraph companies from indulging in greater wire capacity and investment than is necessary to handle the average volume of business offered," Dr. Naisbrough declared, "the result of which is that the wire services are unable to handle the great mass of business communication which is offered to them at the speed which business men are entitled to. The surest proof of this is correct is the flood of applications for short-wave assignments being made by private business interests which most certainly indicates that these private interests do not feel that their communications now are being adequately taken care of."

Inasmuch as the various wave bands are limited in number, and the demand for their use for the purpose of conserving time in the transaction of the nation's business will be practically unlimited, it seems entirely against the public interest to parcel out these bands to various and diverse private enterprises which will thereby be put in a preferential position with reference to their competitors. It is therefore represented that these wave bands should be reserved for the use of the whole industry and business of the country upon equal terms and that they should be assigned to agencies which will develop them intensively for the purpose of the entire public.

Contentions of the Universal Wireless Communication Company that these channels should be reserved for the use of the general public coincide with views recently expressed by Judge Ira E. Robinson, chairman of the Federal Radio Commission.

PUBLIC INTEREST
"Paramount general public service attaches to the use of the air for point-to-point telegraphic wireless communication," Commissioner Robinson asserted, in discussing the assignment of short waves. "Here we have that which pertains to the very life of our people and of the race. Broadcasting can afford only limited aid to business and to the important inter-relations of the people. It cannot even send a message for answer, nor can it send it in a practical, confidential, as between the parties."

In proper allocation of the short wave lengths of the world spectrum to the nations of the earth, available under international agreement for telegraphic service, America can have but a limited number. Indeed, at the present development, these cannot be sufficient for the great every-day intercontinental and transoceanic communication necessary for our great American activities. Then, shall we frivolously grant license to one for mere private business use, whether oil producer, meat packer, cotton grower, rubber producer, power line or even railroad?

"It is now conceded that the use of the spectrum belongs to the public. Congress has directed that it be licensed by the Federal Radio Commission only for the public convenience, interest or necessity. Can we therefore grant a license to use the air to anyone other than on the consideration that he will use it primarily for the benefit of the general public?"

BABY BADLY INJURED
CHINO, Sept. 23. — Choosing a butcher knife as a plaything nearly cost the life of Ruth Trask, 3-year-old daughter of Mr. and Mrs. H. L. Trask, 228 East Riverside Drive.

The tot, while carrying the sharp knife, stumbled and fell.

A deep cut was inflicted on the right forearm. Dr. G. J. Fleming attended the child at San Antonio Community Hospital. Several stitches were required to close the wound.

KELLEY PUT IN HICKMAN CELL

Condemned "Butcher Boy" to Share Room in Spite of Privacy Plea

SAN QUENTIN, Sept. 23. (Exclusive)—In spite of William Edward Hickman's desire for privacy in the condemned row, he was given a cell-mate today in Leo Pat Kelley, "butcher boy" convicted of the murder of Mrs. Myrtle Melus in Los Angeles.

Hickman, the kidnaper-slayer of Marion Parker, had asked that he be permitted to occupy a cell alone, but with the condemned row full, Warden Holohan was obliged to deny Hickman's request, and Kelley entered the cell today.

Anti-Catholic at Jefferson's Home 'Fired'

NEW YORK, Sept. 23. (AP)—Stuart G. Gibbons, president of the Thomas Jefferson Memorial Foundation, last night disclosed that the board of governors of that organization has asked for the resignation of a hostess at Monticello, Jefferson's home, who is charged with having announced to a visitor her preference for Hoover as President "because you can't trust a Catholic in politics."

Officers and the board of governors of the memorial foundation are not interested in their employee's politics," Mr. Gibbons said, "but will not for the moment countenance any person connected with the foundation expressing such an un-American sentiment, and particularly at the home of Thomas Jefferson, the father of religious freedom in America."

According to the report of an English engineer, Col. T. H. Chapman, rubber paving lasts longer than other kinds, reduces noise and prevents skidding.

POLITE DRIVERS HELD SAFE ONES

Road Builders Apply Novel Test to Motorists

Courtesy and Caution Seen as Yokemates

Road Hog Due for Accident, Observers Maintain

WASHINGTON, Sept. 23. (Exclusive)—Unreasonable speed as a major factor in causing highway accidents was vigorously stated today by the American Road Builders' Association in its national drive for safety on the highways. "Speed, when rationally used, is not always a great hazard," the association declared. "It is speed tempered with common sense which causes accidents."

The association states that 2706 persons were killed in 1927 as a direct result of unreasonable speed. Next to inattention speed excited the greatest number of fatalities chargeable directly to motor vehicle drivers.

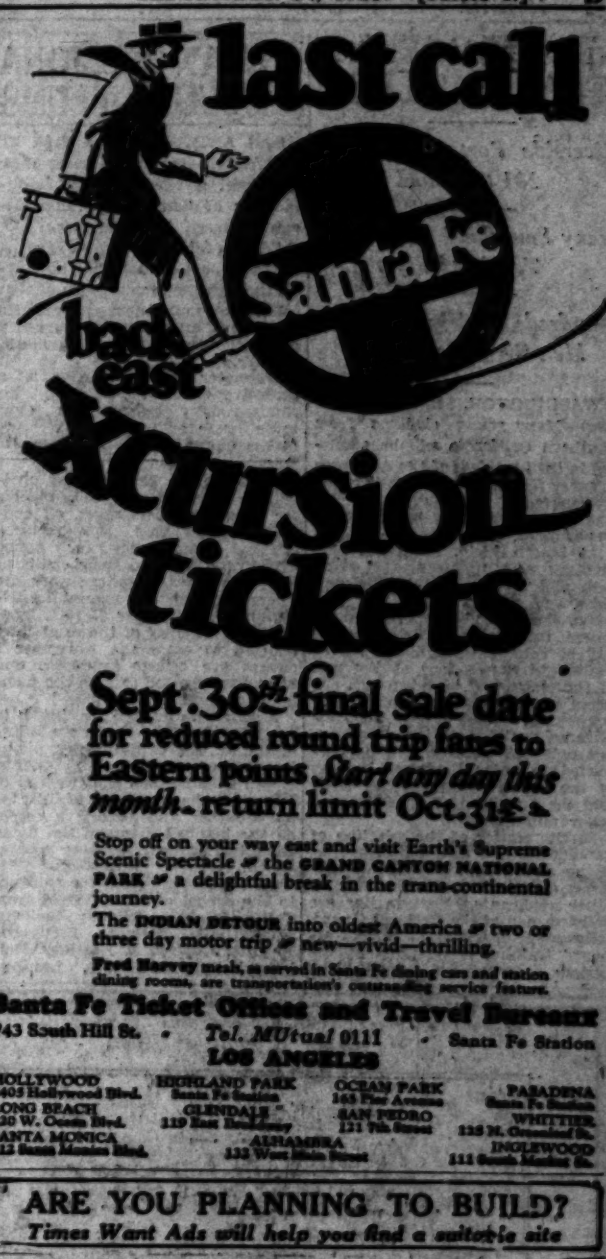

"It is the degree of courtesy and caution used while driving which contributes to safety on the highways," the association pointed out. "There are places where a reasonably high speed does not create a hazard and others where a similar speed verges upon reckless driving. It is the application of courtesy and caution to the gauging of speed which is desirable, rather than the adherence to a series of rules for the speedometer."

The organization urges drivers to observe the speed laws under all conditions. "Mere observance of legal speed limits, however, does not indicate safe driving. The conscientious use of courtesy and caution should temper the speed used by a driver to fit the conditions of traffic and roadway."

A Good Alternative
"Mummy, I'm going out to play with Jimmy today," said a young girl. "You mustn't, Tommy. You know we have no dealings with the Kellies."

"All right, Mummy, I'll go over and knock the stuffing out of him!" —(Scotsman).

AIR FIELD WILL TRAIN CIVILIANS

Riverside Port Will Admit 101 to School

Many Southland Boys to be Taught to Fly

Hundreds Qualify But Army Men Given Preference

WASHINGTON, Sept. 23. (Exclusive)—Many young civilians from Southern California will be admitted to the new class of the Air Corps primary flying school when it opens November 1 at Riverside, Cal. This was announced today by the War Department.

At March Field, Riverside, 101 civilians and nine enlisted army men will be admitted to the new class. At Brooks Field, San Antonio, Tex., the only other place where this primary flying school will be conducted, civilians will be limited to twenty-four as the rest of the places will be filled with enlisted men of the Army who have preference. More than 300 applicants qualified for this training, but only 125 civilians will be permitted to enter the class because of the limited room at both fields and the priority of West Point and other military men.

In the matter of the selection of candidates for appointment as flying cadet, enlisted men of the Army are given preference over all other applicants. Next in line are enlisted men of the National Guard, followed by members of reserve officers' training corps units at the various educational institutions

TEXAN MISSIONARY DOUBLES IN SUGAR PLUMS AS SANTA CLAUS

SAN ANTONIO (Tex.) Sept. 23. (Exclusive)—For several years J. M. Allard, a retired candy manufacturer of San Antonio, has devoted himself to making the poor children of Mexico happy. During the most part of each year he travels through the remote parts of that country on mule-back, accompanied by a pack animal which carries a store of sugar and candy-making utensils.

Whenever Allard arrives at a primitive village he sets up his candy-making equipment in some lowly home or public place and makes dulces for the children. He distributes the sweets free of charge and while the children are gathered around him he tells them Bible stories in Spanish. In this simple manner he has been the means of bringing religious teachings into hundreds of homes and to thousands of children.

Allard has just returned to San Antonio from one of his trips. He was gone more than four months and traveled hundreds of miles, visiting many out-of-the-way places which are reached only by rough mountain trails. On these trips he bears all of his own expenses. Although he has frequently traveled through bandit-infested regions he has never been molested.

Throughout the country and civilians at large. In order to be eligible for appointment, however, all candidates must pass the required physical examination for flying. Those who have to their credit at least two years of college work are exempted from the mental examination. As a matter of fact, however, the majority of the candidates selected to enter the November 1 classes are college graduates and none was required to take the mental examination.

Among the candidates listed to go to Brooks Field is Christy Mathewson, Jr., son of the former pitching star of the New York Giants. It will thus be seen that instead of following the footsteps of his famous father and seeking a career on the baseball diamond the flying game has presented a more popular appeal to young Mathewson.

Successful applicants for entrance to the school at March Field from California are as follows: Civilians: Willard E. Melvin, Brentwood Heights; Charles A. Hastings, Hollywood; Guy H. Brooks, Los An-

geles; Cyril Chappell, Los Angeles; Winfield S. Crawley, Los Angeles; Morris E. Rogland, Los Angeles; Charles T. Bauer, Los Angeles; Petros E. Warrington, Los Angeles; Paul L. Jones, National City; Ivan L. Farman, Oakland; Philip T. Durfee, Pasadena; Winslow C. Morse, Redlands; Clarence C. Mitchell, San Jose.

In addition to these civilian applicants from California and many from other States the nine army men to be in this class at March Field are:

George E. McEllen, Maurice W. Judd, Spencer S. Edmondson, Elder Patterson, Harold E. Humphrey, William C. Dolan, W. Judson Fry, Edmund M. Stegling and Richard B. Vassler.

ENDURANCE FLIGHT FAILS
OAKLAND, Sept. 23. (P)—A projected world endurance record flight by Capt. Roscoe Turner, flying a Timm biplane, ended eighteen minutes after he took off from the airport here when he was forced down on account of oil line trouble.

VINEYARDISTS CALL ON ETHER

California Grapes to be Sold by Radio

Message of Large Crop Will be Told to Millions

Customers Must be Found for 12,000 Carloads

SAN FRANCISCO, Sept. 23. (Exclusive)—Selling California grapes over the radio, the first time in history that an intensive salesmanship campaign via the air has ever been attempted, will be inaugurated tomorrow night. By means of a national hook-up of forty broadcasting stations, the California Vineyardists' Association "goes on the air" tomorrow night as the big feature of National Grape Week.

The radio message will be heard by 5,000,000 radio owners in the area bounded by Omaha and St. Louis on the West and Boston and New York on the East, covering every section where California grapes are being sold.

Marketing a perishable crop by radio is a new thing, but is expected to produce big results.

"We have 12,000 cars of grapes now 'rolling' and we must find buyers for the 300,000 tons at once," said Donald D. Conn, managing director of the association. Conn will deliver the selling talk tomorrow night, being introduced by Neil S. Olsen, chief of the Federal Bureau of Agricultural Economics at Washington, which is co-operating with the California grape growers.

GRAPE AUCTION METHODS TOLD

Necessity of Uniform Pack Shown by Picture

Buyers Bid on Reputation of Brands Offered

Poor Quality Surest Way to Destroy Far Market

SACRAMENTO, Sept. 23. (Exclusive)—Actual handling of grapes in the eastern fruit auction markets is pictured by S. S. Rogers of the State Department of Agriculture in a way that shows the importance of uniformity of quality and the advantage of brand reputation where the integrity and dependability of the pack are properly guarded.

"California grapes," says Rogers, "are handled through the auctions by two methods, depending on whether they are offered as table or juice grapes. In the table-grape auction the entire car is unloaded and the crates or bins placed in the auction display room. Usually every third container on the outside row is opened and from these samples the entire lot is bought."

SAMPLES FOR SELLING
"These samples are taken at random throughout the load and the prospective buyer may open as many containers in any part of the stack as he desires. Invariably where an unknown brand or where a brand which has not been giving satisfaction is offered the prospective buyer will open a number of packages from all parts of the stack."

"Juice grapes also are sold from samples taken, in most cases directly from the car, but in handling this type of products the car usually is not unloaded but is sold entirely upon the merit of nine or ten bins placed on display. Here again the prospective buyer can open as many other containers as he wishes and the valuation he is willing to place upon the car is based wholly upon the relatively few packages which he sees."

BUCKAROOS BESTRIDE BIKES TO BUNCH BROOMTAILS FOR BUSTER

MESA (Ariz.) Sept. 23. (Exclusive)—Rounding up wild horses by use of motorcycles is to be the next stunt in a temporary revival of the wild West. Several thousand wild horses, mainly underbred ponies, are declared to be eking out an existence on the deserts south of the Gila River, especially in the districts south of Maricopa, Gila Bend and Mohave.

Most of them are claimed by John Cameron, a Gila Bend cattleman. He has sold his interest to Elmer Clanton and Earl Loyal of Phoenix, who are planning use of motorcycles on the level areas and of saddle horses in the hills, all in the end of rounding down and taming and capturing a large proportion of the broomtail bronchos.

For the poorer animals they have an offer of 50 cents per 100 pounds from a Phoenix plant that will make dog food and fertilizer of the bodies. It is expected that most of the ponies will have value as saddlers. Negotiations are under way for sale of film rights of the drive to a Hollywood company.

To offer when the particular lines are being sold," says Rogers. "This picture is given in order to impress upon the grower and shipper the importance of keeping quality uniform under the private label, for it takes time, money and effort to establish a premium on the auction and it can be quickly lost with a few undesirable or non-uniform offerings. Frequently in an auction room in which 100 to 150 buyers are present there will be thirty or forty men on the floor at one time bidding when certain brands of grapes are offered. When other less-favorable known brands are offered to the same buyers there may be only five or six men bidding."

EDISON TO VISIT FORD
NEW YORK, Sept. 23. (Exclusive)—Thomas A. Edison and Mrs. Edison will leave West Orange, N. J., tomorrow to attend the laying of the cornerstone at Dearborn, Mich., of Henry Ford's museum, in which originals of several of the most famous Edison inventions will be housed.

A Word of Thanks To Our Public A Tribute and Good Wishes To Our Successors

THE news of the purchase—by W. & J. Sloane—of the business of California Furniture Company, will come as a surprise to the many friends of this store.

Twenty-three years of adherence to the high ideals which were made the cornerstone of this business when it was founded in 1905, have created for this store a place of honor in the commercial world and have made for it many friends.

The success of this store has been built out of the good-will of the public. We have tried to deserve it, but we would lack in gratitude if we did not utilize this opportunity to record our deep sense of appreciation to those whose patronage, and confidence, have contributed to our progress.

Our retirement brings to Southern California one of the oldest and foremost home furnishing establishments of America. The name "W. & J. Sloane" has for 85 years stood for the same high standards of business practice that have governed the affairs of California Furniture Company since its inception.

We are honored to have the business we have so proudly built pass into the hands of so illustrious a successor. As a matter of fact, California Furniture Company would not have been for sale excepting to an institution of the high calibre of W. & J. Sloane.

Our personal knowledge of the policies and ideals of the new owners prompt us to commend them to your confidence and patronage.

To the public in general we say a final word of appreciation and adieu. To W. & J. Sloane we extend a sincere welcome and best wishes for a long and successful business career in Southern California.

California Furniture Co.
644-646 BROADWAY
INTERIOR DECORATORS

An Introduction W. & J. SLOANE NEW YORK SAN FRANCISCO WASHINGTON Announce Their Succession to the Business of California Furniture Co.

W. & J. Sloane appreciate their good fortune and their responsibilities as successors to such an institution as California Furniture Company whose ideals and principles have been of the same high order as those upon which the house of W. & J. Sloane was founded more than 85 years ago. The business will continue without interruption at the present address, and patrons of the store will still meet the faces familiar to them.

Patrons of the California Furniture Company may rest assured that any unfinished business will be most conscientiously completed. W. & J. Sloane hope to earn and retain their confidence and good-will and will spare no effort to merit their continued patronage. We look forward to the pleasure of meeting in our new Los Angeles home, former customers and friends of our San Francisco, New York and Washington stores.

To the public of Los Angeles and other Southern California cities we pledge a quality of service and value of merchandise developed through eighty-five years of specialization. As direct importers of Oriental Rugs, owners of two Furniture factories and our own modern Linoleum plant, and sole selling agents for a group of the foremost Rug and Carpet Mills, we feel that we are qualified to contribute generously and usefully to the progress of the community in which we have made a new home.

To Introduce Our Business In Definite Terms, We Are:

Direct Importers of Oriental Rugs—Interior Decorators—Dealers in Imported and American Furniture—American, English, Spanish, French and Austrian Rugs—Broadloom and Narrow Carpets—Linoleum in Modern Designs—Draperies—Curtains—Wall Hangings.

Charge Accounts Arranged for our customers' convenience. Freight paid to any Shipping point in the United States and to Hawaiian ports.

Chicago "Clean-up" Results in Wholesale Arrests
Score of Beer and Gambling Establishments Closed
Tires of Police Cars Cut They Visit One Place

CHICAGO, Sept. 23. (AP)—Another "city-wide clean-up" was launched here last night, and police of every district set out beer fairs and gambling houses. Five hundred were arrested and score of places closed.

The chief mark of the drive was a gambling house under the management of John Bolton and several others. Four cars were driven to the place and the place was surrounded. The place was overturned and several hundred dollars worth of cash and jewelry were seized. Bolton was taken to the station and will be held for trial.

Then, when police returned their cars to take those in custody to cells, they found all their calls for more cars to had been made. Bolton was being sought.

The Navy Department has received 7000 letters expressing ways of reducing the number of submarine disasters, with more letters arriving every day.

STARS NAB PAIR AND TIE SACS FOR FIRST PLACE

STARS DROP LONG GAME TO MCGRAW'S BATTLERS

Genewich Beats Luque in Duel, 2-1
The Stars dropped their long game to McGraw's battlers in a 2-1 victory. Genewich was the hero of the game, hitting a home run in the fourth inning.

That rangy first baseman put the skids under Jess Petty with his third home run of the season in the third inning with two of his mates on the bases. The wallop, incidentally, put Bottomley in a tie with Hack Wilson for the league leadership in home runs.

Brooklyn got off to a bad start. A low throw to the plate in the first inning bouncing through Goetz and rolling to the grand stand while Douthitt and Frisch scored. Bottomley's long smash over the right-field wall in the third virtually clinched the half game. High and Frisch previously had singled.

Petty was removed for a pinch hitter in the Brooklyn fifth when the Robins scored their only run on singles by Bissonette and Flowers, a passed ball by Wilson and Baneroff's infield out.

ST. LOUIS, Sept. 23. (AP)—The Cardinals held their one-game lead in the National League pennant race with no great effort here this afternoon as Jess Haines pitched the St. Louis club to an easy victory over the Robins. The score was 7 to 1.

Next to Haines, who limbered the Brooklyn band to three hits, Sunny Jim Bottomley was the Cardinal hero this afternoon.

That rangy first baseman put the skids under Jess Petty with his third home run of the season in the third inning with two of his mates on the bases. The wallop, incidentally, put Bottomley in a tie with Hack Wilson for the league leadership in home runs.

Brooklyn got off to a bad start. A low throw to the plate in the first inning bouncing through Goetz and rolling to the grand stand while Douthitt and Frisch scored. THEY GROW 'EM BIG DOWN ON THE FARM
Despite the high cost of living Stanford's football players aren't getting any smaller, as is seen by a glance at this photo which shows four 200-pounders. From left to right they are Corliss Artman, tackle; Capt. Bliff Hoffman, fullback; Herb Fleishacker, quarterback; and Ronald Sellman, tackle. The chap below is Chuck Smalling, being groomed to fill the signal calling berth on Pop Warner's first team. (Associated Press photos.)

YANKS COP TILT FROM CLEVELAND

Huguen Hold Lead With Victory as Hoyt Blanks Indians, 5 to 0
CLEVELAND, Sept. 23. (AP)—The Yankees protected their lead of two games over the Athletics in the pennant fight by white-washing the Cleveland Indians by 5 to 0, here today in the first game of a series of three. The Mackmen maintained the status quo by defeating the St. Louis Browns, 11 to 7.

Making his seventh appearance since in the last fourteen Yankee games, Waite Hoyt held the Indians to four scattered hits to win his twentieth victory of the season. He also helped his own cause along with two singles.

The Yankees came out of their batting slump to the extent of eleven safeties which they bounded back at Joe Shaute. Of these two were by Babe Ruth, who broke his own personal slump with his first effective blows in five games. One of the Babe's blows was a double. Ruth pulled up lame in running.

ST. LOUIS, Sept. 23. (AP)—The St. Louis Browns lost to the Philadelphia Athletics in the opening game of their series here this afternoon by a score of 11 to 7.

Manager Howley sent all of his regulars into the line-up against the Athletics, who are in second place and two games behind the league-leading Yankees. The Athletics brought in four runs in the ninth inning when Miller singled to right field. Hauser's single sent Miller to third. Dykes hit a homer into the right-field pavilion, scoring Miller and Hauser ahead of him. Rummel.

RANCHO GOLFER LEADS SENIORS

Leon Keller Wins Medal in First Division
Johnny Mescall Cops Match Play Cup, 4 Down

FORERUNNER TO LOS ANGELES
Open Proves Success
BY EDWARD LAWRENCE
Riviera's first annual invitation tournament wound up yesterday in the proverbial blaze of glory with Charley Seaver safely perched on top of the heap.

Outclassing a field of 229 golfers in the four days of the play, Charley led the way by two strokes over his nearest rival with a 10 gross of 69-74-143. Since he was playing in the special tournament for those under twenty-one, however, the first-night trophy goes to Leon Keller of Rancho. His total was 77-68-143.

As a forerunner to the Los Angeles \$10,000 open in January, the invitational was an outstanding success in every way. The big feature was the fact that only two golfers, Seaver and Keller, were able to break par. Just what the nation's leading professionals and amateurs will do over the course when it is stretched to its full championship length of 6620 yards with a par of 70 is a question.

In the first division, J. Sheldon won low net with 161-28-141. He had two fine rounds of 79 and 82. In the 11-to-18 (Continued on Page 12, Column 4)

ATHLETICS WIN OVER ST. LOUIS
Mackmen Take Opening Game of Series From Browns, 11 to 7
ST. LOUIS, Sept. 23. (AP)—The St. Louis Browns lost to the Philadelphia Athletics in the opening game of their series here this afternoon by a score of 11 to 7.

Manager Howley sent all of his regulars into the line-up against the Athletics, who are in second place and two games behind the league-leading Yankees. The Athletics brought in four runs in the ninth inning when Miller singled to right field. Hauser's single sent Miller to third. Dykes hit a homer into the right-field pavilion, scoring Miller and Hauser ahead of him. Rummel.

LOTT AND HENNESSY WIN NATIONAL TENNIS LAURELS

CHICAGO, Sept. 23. (AP)—After a sizzling duel with the Australian team, the western team of George Lott and John Hennessy today won the national intersectional tennis title on the turf courts of the Chicago Town and Tennis Club.

set of the doubles was so hard fought that it went to deuce twelve times before the Americans could break through.

Hennessy won his singles match against Harry Hopman, 6-2, 3-6, 6-4, but Lott was upset by the sturdy Australian net ace, Jack Crawford, in his singles, 3-6, 6-4, 6-3, and the doubles match was the deciding factor. After a terrific fight, the Americans won, 1-6, 6-4, 12-10, clinching the championship.

Although a very fatigued Hennessy came back to his old brilliancy and it was fortunate for Lott that he did, as the Chicago youth was in a bad slump. Tim and again Hennessy came through with brilliant net work in the doubles to forge ahead.

In the singles with Crawford, Lott completely lost his head and tried to win by net play. He took the first set but thereafter was in the rear.

Hennessy was too much for

COACH SPAULDING TO DRILL BRUINS HARD FOR FOOTBALL BATTLE WITH ARIZONA TEAM

BY FRANK ROOPE

Some time ago one of the ancient remarks that experience was the best teacher.

Bill Spaulding, coach of the Bruins, is a firm believer in the above axiom.

Spaulding thinks the experience that his Bruins football machine got in their opening game of the season last Saturday with the Santa Barbara Teachers' College will be a real help to them.

Spaulding thinks the experience that his Bruins football machine got in their opening game of the season last Saturday with the Santa Barbara Teachers' College will be a real help to them.

Spaulding thinks the experience that his Bruins football machine got in their opening game of the season last Saturday with the Santa Barbara Teachers' College will be a real help to them.

Spaulding has a nice prospect in tiny Buddy Forster if last Saturday's performance of the Hunting Park flash, is any criterion.

Buddy displayed some shifty looking running during the melee, if he improves with each game he should be a real star before the season takes its final bow.

What Forster will do under Coach Spaulding's fire is something else again. Capt. Joe Fleming and Earl Fields, who made the first two touchdowns for the Bruins Saturday, looked pretty good while they were in the game. Spaulding yanked them early, however, before anyone could get a real line on them.

The Bruins have a tough task on their hands for Saturday, according to the advance word. The Wildcats are rated as a much stronger aggregation than the Roadrunners. In addition they have beaten the Bruins in their last encounter. The Bruins, 16 to 13, in that tussle.

The U.C.L.A. boys, on the other hand, are eager to even the score today for the game right after Spaulding gets through speaking his little piece on what he thinks of their opening performance.

BRUINS MAKE GET SET FOR JAYS

In preparation for the opening game of the freshman football season, Coach Fred Oster, from mentor at the University of California at Los Angeles, is giving his yearlings a stiff workout today to smooth out rough kinks in their play.

Opening the fresh schedule next Saturday at Moore Field as a curtain-raiser to the varsity fray with Arizona, the Bruin Babes will find a tough opponent in Compton Junior College, 1927 champions in the Southern California Junior College League.

Inaugurating a new system with the freshmen, green sweaters have been issued to approximately twenty players, thus marking the beginning of the Bruin Babes.

Among the strongest men to be uncovered at U.C.L.A. are Tony Peterson, a center from Hollywood, and a brother of a Bruin varsity man, are two other good Bruin prospects.

Spaulding's players did come through fine at the aerial game. The Bruins uncovered a quartet of passers in Bert La Brucherie, Cliff Simpson, Bob Rasmus and Ted Dennis. Simpson and Rasmus were particularly good in their play, especially in last Saturday's game. They missed one out of five attempts.

The Bruins also showed that they are going to have a fine line back. They are going to have a fine line back. They are going to have a fine line back.

SEAVER TAKES RIVIERA PLAY

Leon Keller Wins Medal in First Division

Johnny Mescal Cops Match Play Cup, 4 Down

Forerunner to Los Angeles Open Voted Success

(Continued from eleventh page)

handicap division. C. E. Platt, whose brilliant red shirt evoked a great deal of interest, placed the group with a low gross of 85-87-172. C. W. Riley won low net, 177-28-140.

KEEN COMPETITION

Competition was particularly keen in the match play against par. Johnny J. Mescal carried home the big trophy, finishing 4 down to par.

Bob Robinson, 8 down, was runner-up. Johnny had a 16-77-183. In the second round, 5-10-13 handicap, J. C. Shindler turned in his card, only 4 down. A. S. Hayes was runner-up, 10 down. Last night's result placed J. A. Howe first place, 3 down.

In the junior division for golfers under 21, Eugene Brown won with 85-87-172. He carried away the low net trophy. Danny Hunter, 7-78-165, was runner-up to Seaver in the medal play, while Jimmy Millhollan, 8-80-168, finished third.

Among the notable feminine players who played were Miss Helen Law, daughter of W. H. Law, and Miss Mary Jones, daughter of W. H. Jones.

The Riviera Florida relief fund was swelled by a total of \$500, and the Riviera relief fund was swelled by a total of \$500.

LARGE ENTRY

Including the entries in the two-ball foursomes, the tournament attracted 405 players. In the total were 280 in the match play and 115 in the foursomes. The enthusiastic approval of the two in one tournament, a thirty-six-hole medal and match play running concurrently, indicates that such tournaments will grow in popular favor.

The success of the tournament was due in no small measure to the excellent cooperation of the tournament committee, which was composed of Dick Smith, chairman; Nat Devered, Victor Heerman and J. A. Howe.

Complete results of all divisions, junior and senior, and two-ball foursomes follow:

14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56-57-58-59-60-61-62-63-64-65-66-67-68-69-70-71-72-73-74-75-76-77-78-79-80-81-82-83-84-85-86-87-88-89-90-91-92-93-94-95-96-97-98-99-100-101-102-103-104-105-106-107-108-109-110-111-112-113-114-115-116-117-118-119-120-121-122-123-124-125-126-127-128-129-130-131-132-133-134-135-136-137-138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-

Once Overs - - - By C. D. Batchelor

"You say yer father's a big man in the street? Wot cha mean, he a big man in the street?"
"I mean he's a traffic cop—at's wot I mean."

CHUCKLES from LIFE

After Commencement, What? I was just a little drunk. So was Harkness. Steve was under the table. "Let's have another line," I said. "Why not?" said Harkness. We had three lines, a cotillion and a success. Steve wouldn't get up from under the table to drink his, so we poured it over his hair. "Where's Droole? Good gtd, Droole." "Over at Polign's. Let's get a taxi." We gave the taxi driver a drink. Droole was dancing with a fat Armenian. "He knows Michael Arlen," said Droole. "What of it?" I said. "Who the hell is Michael Arlen, anyhow?" "Let's have a drink," said Harkness. "I don't like that waiter." "Throw a chair at him and shut up," said Droole. "Give me a drink."

We threw four chairs at him. The second one hit him. We tipped him two hundred francs. I was very drunk. So was Droole. Harkness pretends he was a train announcer. "I'm sick of Paris," said Droole. "Give me a drink and let's get the hell out and go to Russia. Or Barcelona."

"Not yet," I said. "We still have to go to Domery's, Gangul's, L'Orange Seche, Le Singe Chauve, Mme. Pinaud's on the Rive Gauche, Le Moulin d'Orgueil, Childe's and the American Bar at the Ritz."

"Why?" said Droole. "I don't know," I said. "Do you?" "No," said Droole. "Give me a drink. The waiter came up."

"Mister veut?" he said. "Sais Pas," said I. And I groaned and buried my face in my hands. HENRY WILLIAM HAVEMANN

G.O.P.'S COUNTY CHIEFS CHOSEN

Col. Fowler Announces List for Central Committee
Organization Meeting Will be Held This Week
Intensive Drive Planned to Aid Entire Ticket

The selection of prominent Republican leaders throughout Los Angeles county as members of the Republican County Central Committee to carry the campaign for Hoover in the State's largest vote area, was made known yesterday by Col. William Eric Fowler, newly elected county chairman.

At an organization meeting to be held this week plans will be made in detail for the campaign in every precinct of the various Los Angeles Assembly Districts for Hoover and Curtis, Hiram Johnson and the entire Congressional and legislative ticket.

Following are the committee members announced by Fowler:

Sixty-first District—Harry V. Adams and Charles V. Chenoweth, Glendale; Dr. Milbank Johnson, Pasadena.

Sixty-second District—A. W. McPherson, Santa Monica; George B. Bush, Los Angeles; M. J. Kavanaugh, Beverly Hills; Arthur W. Eckman, Palmdale; Del Rey.

Sixty-third District—J. L. Van Norman, John R. Quinn, Edna Porter Phillips, Joe Crall, Jr., Howard W. Seager of Los Angeles.

Sixty-fourth District—W. L. Hollingsworth, Clarence W. Horn, Marshall Stinson of Los Angeles.

Sixty-fifth District—William Francis Ireland, Los Angeles.

Sixty-sixth District—John Henderson, Morris M. Ferguson, Frank M. Smith, Los Angeles.

Sixty-seventh District—Col. George S. Parker, Edward J. Pyle, MacDougal Snowball, Pasadena.

Sixty-eighth District—Mark Foster, L. L. Lott, Joseph A. Alford, Jr., Pomona; C. W. Pinkerton, Herman L. Perry, Whittier.

Sixty-ninth District—Spencer W. Hudson, Merrill Allen, Alhambra; Mrs. Florence Collins Porter, South Pasadena; Louis H. Hamilton, Huntington Park.

Seventieth District—A. C. Malone, Charles L. Hartwell, Mrs. Margaret B. Rominger, James P. Collins, Long Beach; C. S. Thompson, Bellflower.

Seventy-first District—Montgomery Phister, San Pedro; Frank R. Carroll, Gardena.

Seventy-second District—Bert Farmer, John D. Fredericks, Jr., D. E. Crall, Los Angeles.

Seventy-third District—Edmond D. Crane, Moses Mitchell, Los Angeles.

Seventy-fourth District—Fred C. Williams, Los Angeles.

Seventy-fifth District—Mervyn L. Arnold, Eugene P. Clark, Los Angeles.

Feast of Fruit Feature of Festival

Thousands Visit San Gabriel for Grape Festival
Queen of Senoritas Chosen Following Pageant
Tower of Fruit Distributed at End of Celebration

A colorful glimpse of old Spain was presented to Southern California yesterday when the Vendimia, or grape festival, was celebrated at San Gabriel. The event marked the opening of National Grape Week, and was sponsored by the Los Angeles Chamber of Commerce, in conjunction with the California Vintners' Association.

It was estimated that more than 15,000 persons witnessed the festivities, which began with a gorgeous pageant in which thirty of Southern California's most beautiful señoritas took part. Wearing their gay-hued shawls and mantillas they presented a striking picture and the task of selecting the most charming of the group was no easy one.

PRIZE BEAUTY PICKED

It was announced that John Steven McGroarty, author of the Mission Play, and Miss Raquel Torres, Spanish screen star, would select the winner, but after one panoramic glimpse of the candidates, Mr. McGroarty retired to a safe place behind the palms and sent word to Miss Torres that she could be the sole judge. Grace, personality and figure were considered as well as facial beauty, and first prize, a silver loving cup, was presented to Miss Apollonia Del Varado. A close second was Miss Raquel Ramirez. The trophy was awarded by the Chamber of Commerce.

Following the pageant a typically Spanish entertainment program was presented in the Mission Play Theater, with Mr. McGroarty acting as master of ceremonies. The theater, which has a seating capacity of 1500 persons, was filled to capacity and it was estimated that 500 or more were standing. Thousands of others tried in vain to gain admittance.

The purpose of National Grape Week is to call attention, not only to the fruit of grapes, but to the industry as an industry, but to acquaint the public with the value of the fruit as an article of diet.

LARGEST INDUSTRY

California produces almost 90 per cent of the total crop in the United States and ships approximately 24,000 carloads to eastern markets each year. It is the largest agricultural industry in Southern California, according to H. Jay Burns of the Italian Vineyard Company, surpassing even the production of oranges in volume.

"One thing the vineyardists hope to impress upon the people everywhere," said Burns, "is that grapes are one of the most healthful articles of diet to be found anywhere. Our slogan is 'eat grapes and stay well' and it is no mere idle phrase. Although they contain an abundance of sugar, it is easily assimilated, and since the protein content is small, grapes are 'not fattening.'"

Historic San Gabriel Mission and the home of Ramona, immortalized in Helen Hunt Jackson's novel, were open to visitors throughout the day and thousands took advantage of the opportunity to visit both places.

TONS OF GRAPES GIVEN

The first thing that greeted the eyes of visitors was a veritable tower of grapes which had been set up in the patio of the theater. Several tons of the fruit were necessary for its construction and at the close of the ceremonies visitors were invited to help themselves. No second invitation was required.

Perhaps the most interesting feature of the festival was the parent vine in the mission patio whence every grape vine in Southern California has sprung. If historians are accurate, despite its age, the vine still bears an abundant crop each year and thus far has shown no symptoms of retiring from the industry.

A nation-wide advertising and publicity campaign will be a feature of the week and it is believed consumption of the fruit will be greatly increased by pointing out the many different methods of serving, as well as by-products.

The vineyardists' association expects to make Grape Week an annual event.

DECORATION ADVISED

The decoration of streets in the harbor district on Armistice Day at a cost not to exceed \$500 has been recommended to the City Council by its Finance Committee.

JULIAN CLAIMS SETTLED

Anaconda and Canyon Oil Suits Over Contracts Halted by Compromise Action

Two large claims, one of the Anaconda Copper Mining Company for \$814,507 and another of the Canyon Oil Company of Oklahoma for \$400,000, have been settled by agreement in the receivership proceedings of the defunct Julian Petroleum Company before Federal Judge McCormick.

The claim of the Anaconda company was settled for \$275,000; the one of the Canyon Oil Company for \$100,000 worth of stock in the new Julian company being organized, and \$100,000 worth of debentures.

LITIGATION HALTED

Settlement of the claims in the receivership proceedings automatically halts the litigation brought in the Superior Court against Joseph Scott and H. L. Carnahan, receivers for the defunct oil company. Both

UPLIFTERS HAVE DAY OF GAYETY

Members and Families Go to Rustic Canyon for Annual Hi-jinks

Members of the Uplifters' Club and their families made merry yesterday at the annual outing of the organization in Rustic Canyon. Motion pictures, polo and the drama served to make the yearly event a success.

The day was started with a film roll call, when pictures of all members of the club were flashed on the screen. Festivities continued until last night when the play, "The Virginian," written by James A. Foley, was presented in the Greek Theater. A barbecue dinner was served to members and their wives after the polo game, which was played in the late afternoon.

The club announced yesterday's affair as the annual hi-jinks, while the low-jinks was staged Saturday night with the presentation of two plays, "The Inseparable Six" and "A Pound of Flesh."

Plans Delayed for Blanchard Funeral Rites

Funeral arrangements for Fred W. Blanchard, Los Angeles civic leader for forty years, who died at the Hollywood Hospital on the 21st inst., following a brief illness, will be made when Mrs. D. E. Hartwell, a sister, arrives here from Europe. Mrs. Hartwell is expected to arrive within ten days. She left London immediately on being notified of her brother's death and is speeding here to direct the last rites. Pierce Brothers will be in charge and announces that interment probably will be in Hollywood Cemetery.

Woodmen Head to be Welcomed Here Tomorrow

Preparations are being made by the camps of the Woodmen of the World to welcome the new head consul, Peter F. Gilroy of Denver, at W.O.W. Temple, 121 West Eighth Street, tomorrow night. Delegations from every camp in Southern California are expected. Degree teams of Riverside, Pasadena, Fremont and La Brea of Los Angeles will give exhibitions. Past Head Consul John H. Foley will act as presiding officer.

Gilroy is a native of California, and has been identified with the Woodmen in an official capacity for twenty-six years. He will be at the Biltmore.

ART LOST WHEN LIFE MATE DIES

For years William Henry Mendham designed rings—dainty jewels to enhance the beauty of women's hands. He had a gift for that sort of thing, and his fame grew. Then his reputation diminished.

"Old Man Mendham" seems to have quit designing rings. It was remarked in the trade. None knew why.

Attorney Walter Ham, who filed

CRASHES PERIL TWO LIVES

Boy and Girl Near Death and Fifteen Others Injured in Sunday Traffic

Two persons are believed to be dying and fifteen others suffered less serious injuries as a result of a series of automobile crashes yesterday.

Albert Valla, 15-year-old school boy, who lives at 1408 East One Hundredth street, received a basal skull fracture and a broken collar bone that may prove fatal, in a collision between three cars at Sixty-seventh street and Mesa Drive.

Miss Mary Mullen, of 6909 Holmes avenue, who is also believed to be dying, received a possible skull fracture when struck by a car driven by Miss Rose Frederico, of 5744 Fortuna street, at the intersection of Sixty-fifth street and Compton avenue. Both Miss Mullen and the Valla boy were treated at the Georgia-street Receiving Hospital.

ONE ACCUSED

Harold Lesina, of 440 West Eighty-seventh street, driver of the car in which young Valla was injured, is being held on a charge of reckless driving.

Five people were hurt when a car driven by Royal E. Munn, 37, a police officer who is on vacation, collided with a car driven by J. E. Sweetman, of 3489 Knoll Crest. All of the injured persons were in Munn's car. Among those hurt beside Munn were Mrs. Myrtle Munn, 23, of 2861 1/2 Eighth street, wife of the police officer; Mrs. Lucille Yeager, 29; Mrs. Leona Said, 20, and J. M. Said, all of 634 1/2 West Seventy-fourth street. Mrs. Said, who suffered a possible fracture of the pelvis, is the most seriously injured of the quintet. All were treated at the Georgia-street Receiving Hospital. Mrs. Said was removed to the General Hospital and the others returned to their homes.

CARS OVERTURN

In a collision between two automobiles at Eighth street and Union avenue, in which both cars were overturned, eight persons were injured.

They are Mrs. Beale Gross, 36, of 407 North Lucerne Boulevard, who suffered possible internal injuries; her husband, Edward, 33, whose left leg was badly torn; Melbourne P. Thornbro, 31, and his wife of 1338 Shatto street, who were cut and bruised; Mr. and Mrs. E. W. Lyon of 3961 Menlo avenue, who received lacerations; Martin Cohn, 35, of 727 Waring street, who had two fingers on his left hand crushed off, and his wife, Mrs. Anna Cohn, 32, bruised and cut.

Thornbro was the driver of one car, police stated. Cohn drove the other.

When the automobile in which she was a passenger crashed into a telephone pole in the 4500 block on Pasadena avenue, Mrs. Sarah Norton, 29, of 892 El Paso Drive, suffered several fractured ribs and possible internal injuries, according to police. Isabelle Faran of Gardena, driver of the car, and Henry Graham, 26, of 7815 South Vermont avenue, another passenger, were cut and bruised.

BOY POSING AS COLLINS IDENTIFIED

Lad Found to be Arthur Hutchens, Jr., of Marion, Iowa, Son of Railroad Man

Positive identification of the boy held here for several weeks as the missing Walter Collins as Arthur Hutchens, Jr., of Marion, Iowa, son of Arthur Hutchens, Sr., a railroad man, was made yesterday by the juvenile authorities on receipt of a picture of young Hutchens taken in Iowa shortly before he left home.

The picture, according to juvenile investigators, is a perfect likeness of the boy here. When shown the picture the lad of numerous names again admitted his real identity and now awaits arrival of his father.

Along with the picture came a telegram from Hutchens, Sr., requesting the authorities to "hold Arthur Hutchens, Jr. will come after him in a few days." The lad is at Juvenile Hall, and will be held for the father.

Space Sought at Mines Field

The City Council has received an application from Harold Butler who desires 5000 square feet of hangar space at the Mines Field and who desires to know the leasing terms and conditions. This is one of a number of similar applications the Council has received, the first being from the Maddux Air Lines, which desires to dispatch its planes from the city's field.

The Council is scheduled to approve the ten-year leasing contract today so that the city can take possession of the field October 1, next, session of the field October 1, next.

DELEGATES APPROVED

Los Angeles city officials will represent this city at the annual meeting of the League of California Municipalities to be held this year at San Bernardino from October 3 to 12. The Finance Committee of the Council has recommended that the city send one delegate each from the Council, City Planning Commission, Budget and Efficiency Department, City Clerk's, City Attorney's, City Engineer's and Health departments.

Fall of Scaffold Injures Three; One May Die

When a scaffold fell twenty feet at 716 South Spring street yesterday morning, one painter was possibly fatally hurt and two others were slightly injured.

Arthur A. Barrow, 49 years of age, of 1027 Bartlett street, suffered possible internal injuries. His fellow-workmen, who fell with him, are James L. Casteel, 28, and his brother, C. J. Casteel, 21, of 765 San Julian street. All were given emergency treatment at the Georgia-street Receiving Hospital. Barrow was transferred to the Santa Fe Hospital.

It was believed by police that a slipping rope caused the scaffold to fall.

DEATH AWAITS GAME'S END

J. E. Lynes, Produce Broker, Succumbs After Playing Golf at Hollywood Club

While dressing after playing twelve holes of golf at the Hollywood Country Club, J. E. Lynes, wealthy produce broker of 545 1/2 North Windsor Boulevard, dropped dead from a heart attack in the locker-room of the club yesterday morning.

He had been on the course with his friend, Fred J. Dav, 132 South Gramercy Place, and was arranging his necktie when he fell in the locker-room. He was also in the locker-room.

Dr. A. H. Moore was called, but efforts to revive Lynes were futile. Dr. Moore signed the death certificate. No inquest will be conducted. Mr. Lynes was 56 years of age. Funeral arrangements probably will be announced today. Day stated. The body is at the Ruyter mortuary.

THE LANCER

by Harry Carr

THE arrival of 130 young Chinese students to enter Yale, Harvard and Columbia... They are financed from a fund returned to China by the United States—when every country in Europe wrung indemnity from China as punishment for the Boxer rebellion. The United States alone declined the loot.

The not altogether peaceful awakening of old China has been due mainly to the Chinese students in whose footsteps these boys are following.

Through them and the students who will follow them, modern ideas will be poured into the Orient. If our universities do not send them back life-long friends of America—rescued that war shall never burst over the Pacific—we shall be bitterly blamed. They will go back from Harvard and Yale to become the great men of the Flowery Kingdom.

SWORDS FOR PLOWSHARES

The manufacturers of automobile lacquer are not the first to find out a peaceful use for war explosives.

Tons of the TNT furiously manufactured for the purpose of hurling death into the German army are being worn on the backs of flappers. On account of its rapid deterioration, enormous quantities of explosive gun cotton were sold to New England textile manufacturers—at bargain sale rates.

MODERN EXPLORERS

The most interesting literature of the day is turned out by young explorers like Harry Hervey, Richard Halliburton and now Carleton Beals.

They have youth and sympathy, and they can write. In the Travel Magazine, I find this brilliant estimate of our neighbor, the Mexican poem, with whom Mr. Beals has been pals on a long trip through Durango:

"The Mexican recklessness as to m-m-m, his elemental greed for crude fact, his passion for emotional fitness, his largeness of hospitality, of kindness, hate, vengeance; his medieval fondness for tinseled show; the general's epaulettes and braid; the bullfighter's flashing tolers, the love of jewelry—all these things clashing with the more ingrained brooding Indian fatalism, an ironic disillusionment in existence which he has absorbed from the vast Orient."

TOO MUCH EXPERIENCE

I don't know whether this should be listed as comedy or tragedy.

A high-brow young lady graduated from Radcliffe and a gram widow were rivals for the hand and heart of a rich loan shark of middle years.

One was the private secretary and the other the "confidential adviser."

The young lady with the university degree got his promise; but the divorcee suddenly dragged him off to the altar—secretly.

A triumph of experience action over theory. Hence a \$700,000 damage suit. It seems that there are many things confidential advisers aren't in on.

WILDER'S FUTURE

It seems to be an accepted eventually that Secretary Wilbur will climax an interesting career on the Supreme Court of the United States.

His rich judicial experience in all the courts of California—from a justice court to the Supreme

continued the chase in the streets. At Sixth street and Vermont avenue, Officer Hendrick jumped on the fleeing car, the police report stated, but was knocked off. The bandits escaped.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and creases, particularly along the left edge where it is bound. The lighting is even, highlighting the subtle variations in the paper's tone.

Wife and Children
at School Graduation

ONTARIO, Sept. 23.—The
ing rails of Southern
freight trains to
station, to Ex-
alled Ruler of
the Elks Lodge,
to night school,
to long hours of
night study, to
principal of a
Quasi School,
to—what?
Police in On-
tario are watch-
ing with deep
interest the va-
liant but be-
ing wrecked by C.
Burton Thrall
to reach the
star to which he
has hatched his
design. They want
to know the story
of his college work; they

look forward to winning that cov-
eted degree. Miss Ruth Lobaugh,
assistant to the associate director
of the University of California, said:
"There is another large group of
young people who have finished high
school. Perhaps they rejected the
opportunity to attend college, but
now they feel they have missed
something and are turning to the
university courses to extend their
financial horizons."

"And still another section of our
students is made up of men and
women of mature years who seek
new fields of adventure in educa-
tion. A surprising number have read
widely. Through these courses they
acquire specific training in a variety
of subjects with which they have
only had a superficial acquaint-
ance."

GIVES EXAMPLE
Miss Lobaugh tells of a course in
the study of the Constitution of the
United States which she had en-
tered only to acquaint herself with
the type of instruction offered.
"I dropped in for fifteen minutes
one night and became so interested
I completed the entire course," she
declared.

A glance through the schedule of
classes reveals a bewildering list
from which to choose.
The ambitious may study agricul-
ture and gardening, art appreciation
and design-block printing, all the
vast array of subjects that come un-
der the head of economics which
range from life insurance to law for
women, and from salesmanship to
criminology and delinquency.

Education in all its ramifications
offers the teacher opportunity to in-
crease her professional standing.
There are thirty-five classes under
this one heading.
Engineering, a popular subject of
many materials of construction, re-
frigeration, strength of materials,
electrical, radio telephony, refrigeration
and petroleum field technology.

MATH GROWS POPULAR
Mathematics, once of little inter-
est, seems to have come into fashion
and there are more students than
classrooms will hold.
Law for women? That's popular,
too, with special emphasis on the
laws of divorce, community prop-
erty and kindred subjects, Miss Lo-
baugh says.

Geology draws well. The intro-
duction of this course and its suc-
cess has been something of a sur-
prise to university-extension execu-
tives, as has been the interest in
business investment and finance.
English, history, political science,
modern languages, short-story writ-
ing, household art, geography, hy-
giene and a score of other subjects
are offered. In fact there appears
to be no phase of modern life that
has not been charted, outlined and
offered to students.

IDEAL CLASSES
Nor has this epidemic of education
been confined to the large cities.
Indeed, the outlying districts have
responded eagerly to the university's
offer to establish classes wherever
seven or more are gathered together,
although the ideal class is not less
than fifteen.

Oregon and Virginia laws require
that pedestrians walk on the left
side of rural roads so that they
face the oncoming traffic.

CANDIDATE FOR
HUNTINGTON PARK
E. B. Love, real-estate man,
Huntington Park, has been
nominated as vice-president of the
fourteenth regional district of the
California Real Estate Association.
His name will be presented at the
annual convention in Sacramento
next month. Frank D. Brown, of
Woodland, is named as president
in this district.

NICHOLSON FILES
Save Time

Garage mechanics tell us that
from three to four is apt to
be the hour when the going
starts to get tough.

When filing is necessary dur-
ing the "fatigue hour"
mechanics—or anyone—
for that matter—should
use Nicholson Files. They cut
just enough more easily and
just enough more quickly to
mean a noticeable rest for
the arms.

At your hardware and
mill supply dealers'.

**SHE'S ENGAGED
TO FILM ACTOR**

Ann Christy

Ann Christy, 1928 Wampas baby
star, yesterday admitted her engage-
ment to John Darrow, young screen
actor.

Due to the demands of their
profession (Miss Christy and
Darrow are not
thinking of marriage at
present).

The romance
dates back to ten months ago,
when they met at the Metro-
politan studio while Miss
Christy was Harold Lloyd's leading
lady, and Darrow was working in
"Mollie Angels," Howard Hughes's
air film.

Since her appearance opposite
Lloyd, Miss Christy has fulfilled
many film engagements and for his
work was given a contract by Hughes.

**PATH MADE
SMOOTH ON
SEA CRUISE**

Inconveniences Ironed Out
for City of Los Angeles
Trip to Eleven Countries

Through the courtesy of consular
and other representatives of the
Latin-American countries, pas-
sengers who book for the South
and Central American cruise of
the Lassco flagship, City of Los
Angeles, from October 6 to Decem-
ber 9, will be able to stop at eleven
different countries with none of the
inconvenience or delay which
usually is inevitable in foreign
travel.

Special appreciation of the cour-
tesies of various individuals and
governmental agencies which have
co-operated with the Los Angeles
Steamship Company in the ar-
rangement of passport and other
technical requirements has been
expressed by R. F. Cullen, general
passenger agent, and Charles C.
Darr, cruise director.

The fact that this cruise is the
first extensive offshore one to be
made from a Pacific port, and that
it meant an immense amount of
detailed work to prepare necessary
papers for almost 300 persons tak-
ing the cruise under auspices of the
Los Angeles Times and the Los
Angeles Steamship Company, made
the co-operation received doubly
welcome.

Local officials have been equally
helpful in paving the way for a
successful cruise, Cullen says. He
cites in particular the office of the
clerk of the United States District
Court, R. S. Zimmerman, and the
United States Passport Deputy in
that office, Lester J. Cordes; the
Health Department of the city of
Los Angeles, particularly Dr. George
Parish, health officer, and Dr. W.
J. Jeter, assistant health officer,
and the Consulate of Argentina, Chile
and Brazil, the only three countries
out of the eleven to be visited by
the cruise party, which were un-
able to waive passport require-
ments.

Cruise Director Tizard has con-
ducted twelve other tours through
the same countries, but is making
his first from west to east. Previ-
ously his starting point was on the
east coast. He is widely acquainted
in official circles in the countries
to be visited.

**Fog and Closed
Window Balk
Auto Hold-up**

Because it was foggy and the
glass window of his sedan door was
up, R. J. Lutz of 418 North Pol-
setta street, was saved the experi-
ence of being robbed by two bandits
in the presence of a woman friend
early yesterday morning.

Lutz reported that he and his
friend, whose name was not taken
by police, were sitting in his auto-
mobile at Forty-ninth and Hoover
streets. Suddenly a car drove up
alongside. A bandit stepped out,
and apparently unaware because of
the denseness of the fog that the
door of his victim's car was closed,
thrust a revolver toward Lutz. The
muscle struck the glass window.
There was a crash and a scream
from Lutz's companion. The bandit
thereupon leaped back into his car
and was driven away by his com-
panion.

**Wampas Star
to be Married**

Ann Christy, 1928 Wampas baby
star, yesterday admitted her engage-
ment to John Darrow, young screen
actor.

Due to the demands of their
profession (Miss Christy and
Darrow are not
thinking of marriage at

There was a crash and a scream
from Lutz's companion. The bandit
thereupon leaped back into his car
and was driven away by his com-
panion.

**City Club Sues
for Return of
Taxes of Years**

The Los Angeles City Club has
filed suit in the United States Dis-
trict Court against Rex B. Good-
cell, former Collector of Internal
Revenue, and Galen H. Welch, pres-
ent collector, for the return to the
club of nearly \$100,000 in taxes paid
since 1923. The plaintiff asserts
that the club is not a social or
athletic organization and is merely
organized for social uplift. It as-
serts that it should not be taxed
for admissions and membership
fees.

The plaintiffs seek to recover \$12-
460.07 from Goodcell for the years
from 1923 to 1925, and \$86,017.44
from Welch for the years 1926 and
1927.

**Judges Given
Assignments**

Presiding Judge Chambers of the
Municipal Court will take up his
duties this morning following his
return from vacation, according to
a general order issued by acting
Presiding Judge McConnell. Judge
Chambers will take over Division
Twelve, Judge McConnell being as-
signed to Division Thirteen.

Divisions Sixteen, Seventeen and
Twenty-two, which have been with-
out judges for the last week, are
reopened by the order. Judges as-
signed to these divisions are Chase
to Sixteen; Austin to Seventeen;
and Northrup to Twenty-two. Judge
Newmire and Thompson change
courts, Judge Newmire being as-
signed to Division Twenty-one and
Judge Thompson to Division Twen-
ty-six.

**Banking Official
Ready for Work**

P. W. Hall, former secretary of
the Iowa Bankers' Association and
for the past eleven years an official
of the Mechanics and Metals Na-
tional Bank and the Chase Bank of
New York City, today will assume
office as vice-president of the Pan-
American Bank of Los Angeles.

Besides his regular duties as a
vice-president Mr. Hall will give
special attention to the development
of new business for the bank, he
said.

Like Oaks, Perhaps
Life in an apartment-house, says
a new New Yorker in the Woman's
Home Companion, is only life in
layers.

**RESTAURANT KEEPER
FINED FOR BAD MEAT**

Pleading guilty to violating the
city health ordinance, Paul Horn,
proprietor of the O. K. Restaurant,
121 South Main street, was fined
\$25 by Municipal Judge Reed. Horn,
together with samples of spoiled
meat, was brought into court by
Investigators Nunes, Parier and
Swiger of the City Health De-
partment, who told Judge Reed that
they took the meat from his ice
box, following complaints from cus-
tomers that it was being served.

The maximum rainfall over the
virgin forests of Western Washing-
ton amounts to 250 inches per year,
while the minimum in the eastern
part of the State is sixteen inches
a year.

**BANDITS WITH DARK
GLASSES ROB STORE**

Just as he was closing the Gate-
way Store at Twenty-third street
and Union avenue late Saturday
night, E. B. Welch, manager, was
held up by two bandits, armed with
revolvers, and forced to open the
store safe and hand over \$200, ac-
cording to his report to police. Both
bandits, he stated, wore masked
glases.

PETITION RECOMMENDED
The City Council, Traffic and
Lighting Committee has recom-
mended that a \$2.2 per cent. peti-
tion asking for the installation of
ornamental lighting poles on Pe-
cola avenue from Chandler ave-
nue to Ventura Boulevard be grant-
ed.

At \$1185
THE NEW
STUDEBAKER
Dictator
includes ball bearing
spring shackles

RIDING comfort, such as Studebaker
alone can offer, is yours in full mea-
sure in the smart, new Studebaker
Dictator at \$1185. For not only The President
Eight and The Commander, but also Dicta-
tor models are equipped with Studebaker's
exclusive ball bearing spring shackles.

These shackles pose the chassis friction-
free, permitting perfect functioning of
hydraulic shock absorbers and long, pliant
springs. Lubricant sufficient for more than
two years' average driving is sealed in each
shackle. They will never squeak, nor rattle.

Studebaker holds more official records
for speed and stamina than all other makes
of cars combined. The Dictator's record
of 5,000 miles in 4,751 minutes stands un-
equalled by any stock car under \$1,400.

New styles, new lines, new colors, new
comfort—at a price possible only because of
Studebaker's One-Plant manufacture. And
behind it, 76 years of building quality trans-
portation. Come—drive a Dictator—you'll
want to own one if you do.

SOCIETY

BY JUANA NEAL LEVY

After the whirling Paris spring season, after the hectic days and nights at Deauville, after the cure at Aix-les-Bains or Vichy—but before the opening of the Riviera—comes Biarritz. And again between the closing of the palatial hotels in Nice, Menton and Monte Carlo—but before the opening of the winter season in Paris—comes Biarritz. It is one of the few two-season resorts of the continent.

Biarritz is located at that point where the Pyrenees come down to meet the sea. It is surrounded by virgin forests of fragrant pine. Thirty minutes by motor south lies the Spanish border and San Sebastian. As people those charming Basques—a race older than the present-day French and Spaniards, whose ancestors helped people Ireland and California. Sun-kissed the greatest part of the year and fanned by gentle breezes from tropical seas, does one wonder at its popularity?

Biarritz always has proven the Mecca for Americans and the permanent colony of our compatriots there is a large one—most villa owners, among whom are Mr. and Mrs. Roy Williams, Mr. and Mrs. Sam Park, formerly of Bedford, Iowa, and Beaumont, Tex., and Mr. and Mrs. Anthony Drexel, Jr. of Philadelphia. Mr. Park at the present time is host to Judge Stuart R. Smith of Texas, who will return with Mr. Park to the Lone Star State this week.

The first large charity fete of the Biarritz season, which started the last, was conducted at the Miramar, where under the auspices of the French Red Cross an interesting affair was arranged for the benefit of the "Mid-Martin," the children's seaside home in Hendaye, on the Franco-Spanish frontier. The handsome restaurant began to fill soon after 8 o'clock and crowds still were entering an hour later. The fete was organized by the Pau branch of the Red Cross, which also has charge of the spectacular ball each year in Pau, France.

The Miramar supplied a superb setting for last week's gala affair. The Quaker Mother and Spunk was among those in attendance.

The Coe d'Or troupe of Russian singers and dancers is very entertaining this season in a variety of turns, while Teddy Muth's Manhattan Serenaders and Jorge Laupies' Argentine orchestra is better than ever.

Reginald Wright has gone to London but will return this week to open his villa for the season. Mrs. Wright is remaining at the Helianthe during his absence. Her son, John H. Wright, is with her.

Mr. Wright has been asked to start a private pack of fox hounds on his estate on the Pau countryside.

Judge Edward Henning and Owen Churchill of Los Angeles, who have been traveling in Germany, were recent visitors to Biarritz. They were registered at the Regina Palace Hotel.

David J. Robertson has been stopping at the Park Hotel in Lugano, Switzerland.

Mr. and Mrs. E. R. Smith of Brentwood Park have arrived in Paris by air from Geneva and are stopping at the Hotel Continental. They have been touring the British Isles by motor and the continent by air, visiting Belgium, Holland, Germany, Hungary and Switzerland. They will pass several weeks in Paris.

Mr. and Mrs. George Pickard are at their Sunningdale place, Queenscliff, England, where golf offers recreation. Mr. Pickard makes excursions to the Victoria Remond's depot near Witley, Surrey, to inspect his army horses at exercises, and Miss Carol Pickard, his elder daughter, who last year was in California with her parents, is making a round of country house visits, including Scottish ones. Mr. and Mrs. Pickard moved at Sunningdale until the middle of the month.

Mr. and Mrs. J. F. Hall and Mrs. F. M. Aiken have been at the Hotel Atlantic in Hamburg, Germany.

Mrs. Oliver Herbert Morgan has returned to No. 34 Rue de Valenciennes in Paris from Aix-les-Bains, France. She will sail for America this week.

Mr. and Mrs. Fred J. O'Brien have returned to the Hotel Continental in Paris from a visit in Carbourg, France.

W. J. Rampott and family have been stopping at the Hotel Rhinischer in Munich, Germany.

Arthur C. Middlehurst, who has been traveling in Spain this summer, was a recent visitor to Gibraltar.

Miss A. Ellen Lloyd, Miss Margot Kelly and Miss Katherine Evert recently past a few days in Nuremberg, Germany at the Hotel Deutscher.

Mrs. Frank S. Storrs, who is passing some time at the Lido, Venice, gave a party for her daughter, Carolyn, one evening recently. Among those present were Miss Peggy Leitch, daughter of the theatrical founder, and Lloyd Pantages of Los Angeles.

Californians who visited the Wagner performances in Bayreuth, Germany, included Albert Leat and Henry Browning of Los Angeles and Samuel Ammon, Mr. and Mrs. John Jamison and Miss Alice Selzer of Santa Barbara.

King Kennedy, Miss Georgia K. Kennedy and Miss Lillian Boulter of Beverly Hills, and R. M. Larson and Mrs. W. L. Dolman of Pasadena have been visiting in London.

The following Californians have registered at the Paris office of the Los Angeles Times: I. B. Smith; Mrs. Dale Barrere, Mrs. J. R. Cunningham, Mrs. Hattie Molloy, Dr. Blanche Weaver, H. J. Ruddle, Miss Mildred R. Thompson, H. R. Brush and Miss Betty Brush, Mr. and Mrs. Walter Bachman, Dr. and Mrs. S. Berman Friend and Harry H. Young, all of Los Angeles; Mrs. Marie I. Du Puit of Alameda; Mrs. Theodore E. Basset of Pasadena; Mr. and Mrs. Joseph Goldsmith of Hollywood; Mrs. Walter J. Wilson and Mrs. Joseph L. Daulton of Oakland; Mr. and Mrs. Ray Friendberger of Stockton; Miss Jessie Shaw Coman of Fullerton, and Capt. and Mrs. Arthur Koch and Mr. and Mrs. J. Beatty of San Francisco.

In 1926 vessels with a gross tonnage of 26,634,000 paid tolls for the privilege of using the Panama route, while the traffic through the Suez Canal during the same period aggregated but 26,608,000 tons, according to latest available data.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 130 South Broadway.

Breakfast
Baked Pears
Ham Baked with Eggs
Toasted Jelly
Milk Coffee

Luncheon
Cabbage Pudding
French Fried Sweet Potatoes
Sliced Tomatoes, French Dressing
Orange Cup Custard
Tea

Dinner
Fish Cocktail
Stuffed Olives
Braised Short Ribs of Beef
Browned Potatoes Spinach Arabians
Sauté Potatoes
Chass Pie
Coffee

CABBAGE PUDDING
Cut half of a young cabbage into thick slices and boil rapidly until tender in plenty of water, drain, chop coarsely and spread a layer of it in a baking dish, cover with a cream sauce, sprinkle liberally with grated cheese and repeat until the dish is full. Cover with bread crumbs, dot with butter and bake for half an hour.

FRENCH FRIED SWEET POTATOES
Peel and cut sweet potatoes in place like the shape of an orange, place in cold water and thoroughly chill; drain and dry on a cloth; drop into hot shortening and cook until a light brown; drain on a soft paper, sprinkle with salt, place on a hot napkin and serve.

ORANGE CUP CUSTARD
Place the strained juice of six oranges in a saucepan, add half a cup of sugar.

In Paris and the vicinity, visiting the American Cemetery at Romagne, where Mr. Smith's son, Capt. C. F. Smith, of the Ninety-first Division, A.E.F., is buried. They will sail for their home soon.

Miss Violet Stallcup, young concert pianist, has arrived in Paris after a four-month tour of Europe, in which she gave concerts in London and Rome. She formerly was a soloist with the Hollywood Bowl Symphony Orchestra.

Mr. and Mrs. Norman Kenworthy of San Diego have been visiting in Berlin during the past fortnight. Mr. and Mrs. Benjamin Weston, Mrs. M. L. Howard and Mr. and Mrs. Andrew J. Barry are among the Los Angeles people who have been in Baden-Baden, the German Black Forest resort, this month. They registered at Brenner's Stephan Hotel.

Mr. and Mrs. George Pickard are at their Sunningdale place, Queenscliff, England, where golf offers recreation. Mr. Pickard makes excursions to the Victoria Remond's depot near Witley, Surrey, to inspect his army horses at exercises, and Miss Carol Pickard, his elder daughter, who last year was in California with her parents, is making a round of country house visits, including Scottish ones. Mr. and Mrs. Pickard moved at Sunningdale until the middle of the month.

Mr. and Mrs. J. F. Hall and Mrs. F. M. Aiken have been at the Hotel Atlantic in Hamburg, Germany.

Mrs. Oliver Herbert Morgan has returned to No. 34 Rue de Valenciennes in Paris from Aix-les-Bains, France. She will sail for America this week.

Mr. and Mrs. Fred J. O'Brien have returned to the Hotel Continental in Paris from a visit in Carbourg, France.

W. J. Rampott and family have been stopping at the Hotel Rhinischer in Munich, Germany.

Arthur C. Middlehurst, who has been traveling in Spain this summer, was a recent visitor to Gibraltar.

Miss A. Ellen Lloyd, Miss Margot Kelly and Miss Katherine Evert recently past a few days in Nuremberg, Germany at the Hotel Deutscher.

Mrs. Frank S. Storrs, who is passing some time at the Lido, Venice, gave a party for her daughter, Carolyn, one evening recently. Among those present were Miss Peggy Leitch, daughter of the theatrical founder, and Lloyd Pantages of Los Angeles.

Ruddle, Miss Mildred R. Thompson, H. R. Brush and Miss Betty Brush, Mr. and Mrs. Walter Bachman, Dr. and Mrs. S. Berman Friend and Harry H. Young, all of Los Angeles; Mrs. Marie I. Du Puit of Alameda; Mrs. Theodore E. Basset of Pasadena; Mr. and Mrs. Joseph Goldsmith of Hollywood; Mrs. Walter J. Wilson and Mrs. Joseph L. Daulton of Oakland; Mr. and Mrs. Ray Friendberger of Stockton; Miss Jessie Shaw Coman of Fullerton, and Capt. and Mrs. Arthur Koch and Mr. and Mrs. J. Beatty of San Francisco.

In 1926 vessels with a gross tonnage of 26,634,000 paid tolls for the privilege of using the Panama route, while the traffic through the Suez Canal during the same period aggregated but 26,608,000 tons, according to latest available data.

YOUR BABY AND MINE

BY MYRTLE MEYER ELDERD
BABIES SHOULD GET ADDITIONAL FOODS THE FIRST YEAR

Mrs. O. E. S. writes: "I am a young and inexperienced mother and I want to tell you how helpful your column has been to me. I have a little girl eight months old and nineteen months. She has been crawling since six months and now pulls herself up to things. If she hasn't rickets will this early standing cause bowlegs?"

"She has four teeth and cut them without trouble. Here is my most important question. I have plenty of milk for her, and she has never had anything but orange juice since one month. My doctor says no food before a year, but mothers tell me she should be fed. Will you answer this at your earliest convenience?"

ANSWER
I am sorry that I can't agree with your doctor, for it is considered vitally important that the baby have various foods offered before the first year. The regulation order (practically universal now among feeding authorities) is orange juice from two to three months; food liver oil in winter (sunbaths in summer) from three months on; earlier if necessary; cereal at about five months and vegetable juices, or vegetable soup (and later, part of the vegetables steamed into this) beginning at about the seventh month.

This allows for the child's becoming used to all these various foods before nine months when he is weaned from the breast, weaning being completed at ten months. By the time the baby is one year old, he has plain, undiluted, unsweetened cow's milk, gets orange juice in the morning, cereal morning and night, and vegetable soup at one meal. In addition, egg yolk may be started at any time after six months, one teaspoonful of strained yolk only, added to the vegetable juice or given with the vegetable juice or alone. Egg is increased cautiously because even the yolk is not always well taken by babies. The white is not given because it is pure protein and baby gets enough of this element in his milk feeding.

Feeding before the year likewise accustoms the baby to eating, a very vital matter, for we hear over and over about the exclusively breast-fed baby who, for lack of a year who absolutely refuses to eat. The mother continues to offer the breast or bottle, fearful that he will starve and the baby grows punier and paler for lack of a correct diet.

The way to avoid such situations is to begin feeding early, then baby doesn't get so habituated to a purely milk diet.

Early baby hasn't a sign of rickets, so early standing couldn't cause bow-legs. Pulling himself up to things is fine exercise, but seat him gently when he has stood a short time, and don't let him overdo this.

Fraud Suspect to be Arraigned
Having pleaded guilty to a charge of using the mails to defraud in connection with an asserted "sure-selling" motion-picture scenario course, Luther Hanger will be arraigned today before United States District Judge James for sentence.

It was charged that Hanger sent out literature through the mails that he would sell scenarios written by persons who took a course under him and thus obtained various sums up to \$20 each, without any return to the literary aspirants.

Nearly 6000 passengers left England for the United States and Canada on five liners in one day recently.

FOR LARGER WOMEN
On Sale Tuesday (Not Today!)
200 New, High Quality
Dresses
2 for \$29
One Dress — \$15
VALUES TO \$35 EACH!
200 BETTER dresses!—many reduced to less than cost! Elegant satins, heavy Canton and flat crepes, beautiful georgettes. Styles are unusually youthful, slenderizing, NEW! All smart new Fall colors. Sizes 38 to 60. An extraordinary value!—shop early TUESDAY!

HEALTH AND DIET ADVICE
By Dr. Frank McCoy
Author of "The Four Great Causes of Disease"

Dr. McCoy will answer personal questions on health and diet, addressed to him, care of the Los Angeles Times. Inclose stamped, addressed envelope for reply.

THE SOURCES OF OUR FOOD
One of the first curious facts that a student of dietetics learns is that although plants and animals are both used by us as foods, it is only the green plants that are the original food factories of the world. They are the only living things that have the power to combine the soil, water and earth, into substances that can be digested and absorbed by animals, and it is only those plants which are green that contain within their leaves the small masses of chlorophyll (green coloring) which have the property of using the radiant energy of the sun to combine water and carbon-dioxide gas into carbohydrates.

Human beings at the present time use the animal kingdom as well as the vegetable kingdom for their food supply. Cattle, hogs, sheep, fowl, eggs and milk furnish food for principal animal foods. From the animal tissues and animal products we can obtain the radiant energy of the sun indirectly. It is estimated that the food that we eat is derived from the radiant energy of the sun indirectly. To care for the enormous quantities of animal products that are used, civilization has built up some wonderful refrigerating and transportation facilities in and to the meat-packing centers. Both the United States and Canadian departments of agriculture maintain a very rigid inspection of all meats so that those which are diseased may be discarded.

Eggs and milk products are very valuable foods, and are important market products in North America. It is estimated that the food that we eat is derived from the radiant energy of the sun indirectly. To care for the enormous quantities of animal products that are used, civilization has built up some wonderful refrigerating and transportation facilities in and to the meat-packing centers. Both the United States and Canadian departments of agriculture maintain a very rigid inspection of all meats so that those which are diseased may be discarded.
